Social Control In Nineteenth Century Britain:

Social Control in Nineteenth Century Britain A. P. Donajgrodzki, 1977 *Social control in nineteenth century Britain. Ed. by A.P. Donajgrodzki*, 1977 *Religion in Victorian Britain: Controversies* Gerald Parsons, 1988 **The Social Science Encyclopedia** Adam Kuper, 2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society **The Industrial Revolution** Pat Hudson, 2014-09-29 This is an introduction to the Industrial Revolution which offers an integrated account of the economic and social aspects of change during the period Recent revisionist thinking has implied that fundamental change in economic social and political life at the time of the Industrial Revolution was minimal or non existent The author challenges this interpretation arguing that the process of revision has gone too far emphasizing continuity at the expense of change and neglecting many historically unique features of the economy and society Elements given short shrift in many current interpretations are reassigned their central roles **Social Control in Europe** Herman Roodenburg, 2004 This two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned In both volumes an introduction outlines the origins and the continuing value of the concept of social control The introductions are followed by two substantive sections The essays in part one of volume I focus on the interplay of ecclesiastical institutions and the emerging states those in part two of volume I look more explicitly at discipline from a bottom up perspective The essays in part one of volume 2 explore the various means by which communities generally working class communities in nineteenth and twentieth century Europe were subjected to forms of discipline in the workplace by the church and by

philanthropic housing organizations It notes also how the communities themselves generated their own forms of internal control Part two of volume 2 focuses on various policing institutions exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control repression and surveillance **Archivaria** ,1979 **A Social History of Leisure Since 1600** Gary S. Cross,1990 Gender and generation in 19th century leisure Leisure for the masses the commercialization of entertainment in the 19th century Participants and spectators modernization of sport as leisure Dilemmas of leisure and public policy 1900 1940 Consumer leisure and the 20th century suburb Working class and youth at play in the 20th century Looking foward from the recent past Why a social history of leisure Traditional society and the place of leisure Leisure and reform 1500 1700 Anglo American leisure on the eve of industrialization 1660 1800 Industrialization work and play 1780 1850 Quest for leisure 1820 1900 Rational recreation and the Victorian city 1830 1900 Gender and generation in 19th century leisure Leisure for the masses the commercialization of entertainment in the 19th century Participants and spectators modernization of sport as leisure Dilemmas of leisure and public policy 1900 1940 Consumer leisure and the 20th century suburb Working class and youth at play in the 20th century Looking forward from the recent past *Education and Empire* David McLean,1999 Education education education is a slogan of current government but in the mid nineteenth century it also was at the heart of the debate about Britain s position in the world The social problems accompanying industrialization and rapid urban growth provoked a widespread debate which forced education onto the political agenda and the new ideas about teaching methods curricula and the physical and moral care of children developed rapidly This study based on a unique cache of records of the Admiralty Schools at Greenwich provides an extraordinary and striking insight into the problems and the achievements of mid nineteenth schools The story is enhanced by the connection with the Royal Navy a major arm of empire and provides unprecedented insight into the forces at the root of the sweeping changes of the period **Crime and Society in Wolverhampton, 1815-1860** Roger Swift,1987 *Police Power and Colonial Rule, Madras, 1859-1947* David Arnold,1986 Focusing on developments in the Madras presidency between the Rebellion of 1857 58 and independence 90 years later this book studies the creation of a British constabulary in India as a powerful coercive tool of British colonialism The author targets the use of police force against dacoits nationalists adivasi hillmen and urban proletariats and reveals through the organization and social composition of the constabulary how internally as well as externally the police force mirrored the underlying character of the colonial system as a whole

Poverty and Poor Law Reform in Britain David Englander,1998 The Poor Law Amendment Act of 1834 is one of the most important pieces of social legislation ever enacted Its principles and the workhouse system dominated attitudes to welfare provision for the next 80 years This new Seminar Study explores the changing ideas to poverty over this period and assesses current debates on Victorian attitudes to the poor David Englander reviews the old system of poor relief he considers how the New Poor Law was enacted and received and looks at how it worked in practice The chapter on the Scottish experience will

be particularly welcomed as will Dr Englander s discussion of the place of the Poor Law within British history **Collected Studies in Criminological Research** ,1985 **Borthwick Papers** ,1965 **The British Journal of Criminology** ,1992

Rice University Studies ,1981 *European Society in Upheaval* Peter N. Stearns,1992 **Charitable Words** Margaret Helen Preston,2004-10-30 Mismanaged by local authority in the 19th century Dublin lacked sufficient industrial development to provide adequate employment Dublin s charitable workers attempted to improve the lives of the thousands who flocked to the city in search of relief As a means to examining the hidden incentives of charity the author offers a discussion of the language of charity in this setting She notes how contemporary notions of race class and religion influenced how Ireland s philanthropists thought of and related to the poor While much has been written on the perceived racial inferiority of the Celt as compared to the Anglo Saxon Preston suggests that the Irish upper classes in seeking to gain equal footing with the British elite adopted the same language to describe the poor Intense sectarian strife marred Irish charities and undermined the smooth operation of social services Preston offers insight by focusing on two women philanthropists who battled for the souls of Ireland s children She also explores those who remained above the fray such as the Religious Society of Friends in Ireland who offered aid to all regardless of creed Within the charitable records of this group Preston contends that one can see how the Society changed over time and that in Ireland the industrial revolution as well as the 1798 Rebellion contributed to the Society adapting to the mainstream Finally the women of charity helped to establish a modern nursing system for Ireland and this work details their efforts at turning nursing into a respectable profession for women Bulletin - Society for the Study of Labour History Society for the Study of Labour History,1977
