Social Ministry:

Social Ministry Dieter T. Hessel, 1992-01-01 This work challenges pastors seminarians and active members of the laity to rethink the social character of their ministry Dieter Hessel calls on parish communities to meet human need with good Samaritan love while acting for justice with prophetic boldness In this updated edition Hessel assesses major new developments that have occurred in both church and society since the first publication of Social Ministry He gives special attention to the uncertainty that churches face today in regard to their public role From Social Media to Social Ministry Nona Jones, 2020-06-23 This book outlines digital discipleship principles for building an online community and provides practical instruction for how to do it no matter how big or small a local church may be There are more than 2.3 billion professing Christians in the world and more and more new churches launching globally yet statistics show that in person church attendance is declining or plateauing in every nation Although social technology has been around for more than two decades church leaders have long bristled at the idea of church online ranking it as the last concern on their minds in Barna's 2020 state of the church report published February 3, 2020 And then three weeks later COVID-19 closed the doors of every church on earth and suddenly forced them entirely online Nona Jones a globally acclaimed thought leader on leveraging technology for ministry had been leading a movement and sounding the alarm for several years to make digital discipleship a central part of every church's ministry approach In From Social Media to Social Ministry she outlines her digital discipleship principles and provides practical instruction for how to do it no matter how big or small a local church may be There are plenty of books to help churches build a social media strategy but this is the first book of its kind that goes beyond digital marketing to digital ministry Readers will leave this book with Clarity on what discipleship truly is The data that underscores the urgency for digital discipleship Understanding of the resources required to do it well A step by step guide on how to implement digital discipleship into ministry plans Knowledge of the differences among and purposes of the most popular social platforms as well as the tools best positioned for digital ministry Realizing the Full Potential of Social Safety Nets in Africa Kathleen Beegle, Aline Coudouel, Emma Monsalve, 2018-07-02 Poverty remains a pervasive and complex phenomenon in Sub-Saharan Africa Part of the agenda in recent years to tackle poverty in Africa has been the launching of social safety nets programs All countries have now deployed safety net interventions as part of their core development programs The number of programs has skyrocketed since the mid 2000s though many programs remain limited in size This shift in social policy reflects the progressive evolution in the understanding of the role that social safety nets can play in the fight against poverty and vulnerability and more generally in the human capital and growth agenda Evidence on their impacts on equity resilience and opportunity is growing and makes a foundational case for investments in safety nets as a major component of national development plans For this potential to be realized however safety net programs need to be significantly scaled up Such scaling up will involve a series of technical considerations to identify the parameters tools and processes that can

deliver maximum benefits to the poor and vulnerable However in addition to technical considerations and at least as importantly this report argues that a series of decisive shifts need to occur in three other critical spheres political institutional and fiscal First the political processes that shape the extent and nature of social policy need to be recognized by stimulating political appetite for safety nets choosing politically smart parameters and harnessing the political impacts of safety nets to promote their sustainability Second the anchoring of safety net programs in institutional arrangements related to the overarching policy framework for safety nets the functions of policy and coordination as well as program management and implementation is particularly important as programs expand and are increasingly implemented through national channels And third in most countries the level and predictability of resources devoted to the sector needs to increase for safety nets to reach the desired scale through increased efficiency increased volumes and new sources of financing and greater ability to effectively respond to shocks This report highlights the implications which political institutional and fiscal aspects have for the choice and design of programs Fundamentally it argues that these considerations are critical to ensure the successful scaling up of social safety nets in Africa and that ignoring them could lead to technically sound but practically impossible choices and designs
