The Knowledge Business

Rob Imrie, 2016-03-03 This book provides a critique of the knowledge business and describes and evaluates its different manifestations in and impacts on the university sector. Its focus is the social sciences and in particular housing and urban studies. Drawing on a wide range of experiences both in the UK and elsewhere it illustrates the changing management of the academy and the development by university managers of instruments or techniques of control to ensure that academics are disciplined in ways that are commensurate with achieving commercial goals. The individual chapters highlight the different ways in which the academy is being put to work for commercial gain and they evaluate how far the public service ethos of the universities is coming apart in a context in which what is to be serviced is increasingly a private clientele defined by their ability to pay. The Knowledge Business examines the contradictions and tensions associated with these processes highlighting the implications for the academic labour process and the future of the academy

The Routledge Handbook of Post-Prohibition Cannabis Research

Dominic Corva, Joshua Meisel, 2021-09-06 The place of cannabis in global drug prohibition is in crisis opening up new directions for socially engaged cannabis research. The Routledge Handbook of Post Prohibition Cannabis Research invites readers to explore new landscapes of cannabis research under conditions of legalization with not after prohibition post prohibition. The chapters are organized into five multidisciplinary sections: Governance, Public Health, Markets and Society, Ecology and the Environment, and Culture and Social Change. Case studies from the United States, Uruguay, Morocco and the United Kingdom show readers alternative ways of thinking about human cannabis relationships that move beyond questions of legality and illegality. Representing a cross section of cannabis scholarship the contributors provide readers with critical perspectives on legalization that are not based upon orthodoxies of prohibition. While legalization signals a global shift in the legitimacy of cannabis research this collection identifies openings for academics, policy makers and the public interested in ending the drug war as well as a way to address broader social problems evident in the age of neoliberal governance within which prohibition has been entangled
