## **Social Protection Sector Strategy From Safety Net To Springboard:**

*Social Protection Sector Strategy*, 2001-01-01 This book presents recent World Bank analytical work on the causes of violence and conflict in Columbia and the pilot lending programmes which have been designed to promote peace and help development It is divided into three sections The first sets the framework for the history of violence and the mechanisms of its propagation looks at its costs and also at current policy initiatives to reduce it The second part looks at the social economic causes of conflict and the costs of achieving peace The last part reviews the recent experience of the World Bank in assisting countries that are experiencing or have overcome domestic armed conflict *2001 Annual Review of Development Effectiveness* William Battaile, 2002-01-01 This is the fifth annual review which explores long term development effectiveness trends and analyses the choice of lending and non lending instruments and activities to achieve World Bank development objectives The 2001 review confirms a significant improvement in the outcomes of the Banks lending performance It finds that selecting the right combination and sequence of activities for a particular objective can make the difference between success and failure whether at individual project level for country assistance programmes or for global sectoral and thematic priorities At each level there is unexploited potential to maximise strategic selectivity and this is especially important in countries with a poor policy framework or acute institutional development needs
