**The People's Republic of China Today** Zhiqun Zhu, 2011 Despite the significant progress it had achieved in the past 60 years especially in the past 30 years since Deng Xiaoping's reform initiatives in the late 1970s, China faces daunting challenges today. These challenges include among others a rigid political system that does not match economic vibrancy, uneven economic growth and widening income gap, a graying population, environmental degradation, potential social instability, ethnic tensions and separatist movement, poor international image and military modernization. Based on papers originally presented at an international conference held at Bucknell University in Pennsylvania to mark the 60th anniversary of the People's Republic of China (PRC), this book provides an up to date comprehensive and authoritative assessment of the PRC's political, economic, social, ethnic, energy, security, military, diplomatic and other developments and challenges today. Contributed by scholars and experts in political science, international relations, economics, public administration, history, mass communication, psychology and diplomacy, the book focuses on the efforts needed by China to grow in a sustainable manner and to become a respected global power. With each chapter addressing a different and yet an inter related issue of the PRC's development, this book aims to make a significant contribution to the understanding of key challenges the country faces today as it strives to become a global power.

**The Latin American Experience in Pension System Reform** Daniel Titelman, 2009 In the past two decades Latin American countries reformed their pension systems focusing mainly on addressing the weaknesses of the contributory schemes: fiscal unsustainability, low coverage levels and a high degree of segmentation and barely addressed the non contributory element. The reform experiences show however that the intended

reforms did not manage to meet their objectives The Latin American experience shares similarities with that of China in terms of coverage labor market informality Both cases attest to the importance of combining contributory and non contributory components in pension reform design **The Chinese Economy** ,2008 **International Social Security Review** ,1996 **Financial Sector Reform in China** Yasheng Huang,Tony Saich,Edward Saul Steinfeld,2005 **M-Z** Jing Luo,2005 *Welfare Changes in China During the Economic Reforms* Aiguo Lu,1996 Welfare Changes in China during the Economic Reforms examines the welfare changes in China during the reform period which began in 1978 a process of large scale socio economic transformation accompanied by rapid economic growth **International Labour Documentation** International Labour Office.
