Widely assigned and taught in senior capstone and social theory courses Sociology After the Crisis offers the first systematic theory of social differences built on the sociological traditions by embracing to Durkheim, Weber and other familiar figures. The first edition was acclaimed for its nuanced and original rereading of Durkheim in relation to the theoretical reasons he and his contemporaries neglected race and gender. This new edition features two chapters of new material written in the summer of 2003 as the new social structures of the 21st century became increasingly clear. The new Chapter Ten draws upon 9/11, the new world order of two Bush presidencies and globalization to show how individuals lives and sociologies must be thought about in new ways. These events also highlight how American society and sociology have responded and sometimes failed in the struggle over the crisis of modernism. Reviews for the First Edition This expansive reimagining of the historical roots of sociological imagination especially as it embraces voices and visions long lost to our most important national debates is balm to the fractured soul of American society. Lemert's elegant and passionate volume will aid immeasurably in our nation's search for sane solutions to the crises of purpose and perspective he so skillfully explores Michael Eric Dyson author of Making Malcolm and Between God and Gangsta Rap Elegantly crafted Steven Seidman State University of New York at
