Socialistic Fallacies Yves Guyot, 1910 **Principles and Fallacies of Socialism** David Jayne Hill, 1885 **Socialistic Fallacies** Yves Guyot, 2015-06-25 Excerpt from *Socialistic Fallacies* I take the word fallacy in the sense in which it is employed by Bentham By the name of fallacy it is common to designate any argument employed or topic suggested for the purpose or with a probability of producing the effect of deception of causing some erroneous opinion to be entertained by any person to whose mind such argument may have been presented In the following pages my object has been to reduce to their true value the socialistic fallacies with which a number of able but frequently unscrupulous men amuse the idle and attract the multitude They do not even possess the merit of having originated either their arguments or their systems They are plagiarists with some variations of all the communist romances inspired by Plato Their greatest pundits Marx and Engels have built up their theories upon a sentence of Saint Simon and three phrases of Ricardo About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Socialistic Fallacies (Classic Reprint) Yves Guyot, 2017-11-24 Excerpt from *Socialistic Fallacies* No Socialist has succeeded in explaining the conditions for the production remuneration and distribution of capital in a collectivist system No Socialist has succeeded in determining the motives for action which individuals would obey When pressed for an answer they allege that human nature will have been transformed This introduces a difficulty for if I am hungry or thirsty can someone else in a collectivist society give me relief When Denys the Tyrant had a stomach ache he never succeeded in handing it on to a slave Torquemada by torturing and burning heretics and Jews was able to prevent the expression of ideas he never succeeded in changing one The individual remains a constant quantity About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Socialistic Fallacies* Yves Guyot, 1910 **The Fallacy and Failure of Communism, Socialism, and Keynesian Economics** William N. Spencer, 2017-03-16 The hiring firing retention compensation and control of employees in the American workplace is the realm and domain of Human Resources Management But who or what really controls the Human Resources department But

of course the yo yo American economy both a leading and a lagging indicator of the good and or bad the right and or wrong of life in Corporate America And nothing affects the flow of the American economy more than our great and mighty American government Forever taking more and more money away from the rich that is anyone with a job and a paycheck and funneling that money into the deep abyss of government bureaucracy primarily for the purpose of rewarding political friends crony capitalism which keeps that massive amount of money from flowing to American businesses and eventually to American workers

A Critical Examination of Socialism William Hurrell Mallock, 1908 **Individualism, a System of Politics** Wordsworth Donisthorpe, 1889 Chapter IX appeared originally in the Westminster review July 1886 cf Pref *Current Opinion* Edward Jewitt Wheeler, Frank Crane, 1896 **The Political Uses of Literature** Benjamin Kohlmann, Ivana Perica, 2024-01-11 Drawing on a global history of politicized writing this book explores literature's utility as a mode of activism and aesthetic engagement with the political challenges of the current moment The question of literature's uses has recently become a key topic of academic and public debate Paradoxically however these conversations often tend to bypass the rich history of engagements with literature's distinctly political uses that form such a powerful current of 20th and 21st century artistic production and critical theoretical reflection The Political Uses of Literature reopens discussion of literature's political and activist genealogies along several interrelated lines As a foundational moment it draws attention to the important body of interwar politicized literature and to debates about literature's ability to intervene in social reality It then traces the mobilization of related conversations and artistic practices across several historical conjunctures most notably the committed literature of the 1960s and our own present In mapping out these geographically and artistically diverse traditions including case studies from the Americas Europe Africa India and Russia contributors advance critical discussions in the field making questions pertaining to politicized art newly compelling to a broader and more diverse readership Most importantly this volume insists on the need to think about literature's political uses today at a time when it has become increasingly difficult to imagine any kind of political efficacy for art even as the need to do so is growing more and more acute Literature may not proffer easy answers to our political problems but as this collection suggests the writing of the 20th century holds out aesthetic resources for a renewed engagement with the dilemmas that face us now **Current Literature**, 1896
