Hallinan, 2006-11-24 The aim of the Handbook of Sociology of Education is to present the most theoretically grounded and empirically rigorous sociological analyses of schools to date The authors are distinguished researchers in the field Their contributions to the Handbook offer major theoretical perspectives on the schooling process and describe significant empirical studies of schools and their effects on individuals and society The research presented in the Handbook is built on three fundamental tenets of sociology First the authors adopt the perspective that schools are a central institution in society An understanding of the function of schooling in social life is enhanced by viewing schools as interrelated with other societal institutions The study of how the context of schooling influences education processes is critical to an understanding of school outcomes Rather than being determined solely by ascribed and achieved characteristics an individual's cognitive and social development are influenced heavily by the structures and networks in which the individual is embedded Communities families schools and social groups are critical elements in the educative process By viewing the school as a societal institution and highlighting the interaction between context and individual behavior the Handbook chapters provide a broader and deeper understanding of the determinants of learning in contemporary society The second sociological insight that guides the research in the Handbook is that the school is a social system      *Sociology* Martin Holborn, 2004      **Sociology** Mike Haralambos, Martin Holborn, 2002      **Student Handbook to Sociology** Elizabeth Grauerholz, Liz Grauerholz, Elizabeth A. Carver, 2015-06-02 Excerpt from *Sociology and Social Progress A Handbook for Students of Sociology* The problem of human welfare before which all others seem trivial in comparison is not to be understood without the widest attainable knowledge of

things pertaining to man Up to the present time the economist is undoubtedly the one who has made the most searching and the most effective study of this problem But other light is needed and a wider view is necessary than the economist is in the habit of taking The present volume is compiled for the purpose of presenting to the student in convenient form material for this wider view It is based upon twelve years of college and university teaching The selections presented are those which the compiler has found by experience to be the most instructive the most stimulating and the most thought provoking No attempt has been made to select only such passages as embody the compilers views or even to select such as are invariably sound and accurate The fact that a passage has proved brilliantly suggestive and provocative of serious inquiry has in several cases been the chief reason for including it It is the hope of the compiler that this volume may prove useful both to the college student and to the general reader In college classes it is designed to be used as supplementary to an elementary text book as collateral reading to a course of lectures or as a basis for class room discussions The latter is by far the most effective method yet devised for the teaching of the social sciences and in connection with this method the compiler ventures to hope that this volume may prove especially useful The compiler wishes to express here his gratitude for the many courtesies which he has received from authors and publishers About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
