

A complex collage representing social problems. The background features a city skyline with smoke rising from it, suggesting industrial pollution. In the center, a large blue whale is depicted, possibly representing environmental issues. To the left, a crowd of people is shown, with one person holding a sign that says "CENTRE". In the foreground, a young child is looking up, and several people are wearing blue headscarves. The overall scene is a mix of urban, natural, and human elements, symbolizing the interconnectedness of social and environmental issues.

## Social Sector Issues:

**Issues and Challenges of Inclusive Development** R. Maria Saleth, S. Galab, E. Revathi, 2020-06-18 This book explores inclusive development in the Indian context not only within each of the country's major economic and social sectors but also across countries in the particular context of globalization. In the emerging scenario of most expanding economies including India, this topic remains particularly significant. The book's sixteen chapters are divided into eight sections that address burning issues related to inclusive development: historical setting and policy context; current issues and future challenges; inclusiveness in the agricultural sector; inclusiveness in the industrial sector; inclusiveness in the health sector; inclusiveness and poverty; inclusiveness in the social context; and inclusiveness in the globalization context. The book highlights several positive developments displayed by the Indian economy in recent years, including the current growth rate of about 7 percent, which is among the highest rates around the globe. At the same time, it draws attention to the fact that while there is every reason to feel proud of these achievements, we cannot ignore the strains and brewing distress, especially in rural areas or the concerns in environmental and social sectors, including health and education relating to sociological divisions and disturbances, water and air pollution, and ecosystem and biodiversity losses. Important and relevant from both academic and policy perspectives, the book includes essays from some of the most eminent economists and social scientists in the South Asian region, providing vital takeaways for researchers and NGOs as well as corporate sector and government decision makers. *Social Sector Development and Inclusive Growth in India* Ishu Chadda, 2023-09-01 Social Sector Development and Inclusive Growth in India examines whether growth strategies based on the human development approach render growth inclusive. This comprehensive study considers all components of the social sector in aggregate and also covers both the financial and physical aspects. IAS Mains Paper 2 Governance Constitution, Polity Social Justice & International Relations 2021 Mohit Sharma, Rohit Raj, Tushar Shukla, Priya Goyal, 2020-10-01 *Addressing Inequality in Budgeting Lessons from Recent Country Experience* OECD, Korea Institute of Public Finance, 2024-02-19 In many countries, public expenditure, including transfers, plays a major role in reducing income inequality. The report reviews the various ways that budgeting can be used to this end. A first includes taking a broad approach to results-based budgeting, taking social and distributional goals into consideration. A second relies on integrating distributional impact analysis directly into the budget process. The report discusses the concrete experience of eight OECD countries in this area, analysing how they are integrating distributional impact assessment in spending and budgeting decisions. Finally, it discusses the tools, frameworks, and data that are needed to take distributional considerations into account as part of evidence-informed policy making.
