contemporary theory [A History of Sociological Research and Teaching at Catholic Notre Dame University, Indiana](#) Anthony J. Blasi,Bernard F. Donahoe,2002 In a series of documented chapters this work places the emergence of sociology at Notre Dame in the context of that institution s particular history and of the changing doctrines of Roman Catholicism more generally [Log-Linear Models for Event Histories](#) Jeroen K. Vermunt,1997-05-13 Event history analysis a method for explaining why some people are more likely to experience a particular event transition or change than other people has been useful in the social sciences for studying the processes of social change One of the main difficulties however in using this technique is that often information is partially missing on some of the relevant variables Author Jeroen K Vermunt presents a general approach to these missing data problems in event history analysis that is based on the similarities between log linear hazard and event history models The book begins with a discussion of log linear log rate and modified path models and methods for obtaining maximum likelihood estimates of the parameters of these models Vermunt then shows how to incorporate variables with missing information in log linear models for non response In addition he covers such topics as the main types of hazard models censoring the use of time varying covariates models for competing risks multivariate hazard models and a general approach for dealing with missing data problems including unobserved heterogeneity measurement error in the dependent variable measurement error in the covariate partially missing information on the dependent variable and partially observed covariate values
