The Linguistics Of Giving Typological Studies In Language:

The Linguistics of Giving John Newman, 1998-02-15 In this collection of papers twelve linguists explore a range of interesting properties of give verbs The volume offers an in depth look at many morphological syntactic and semantic properties of give verbs including both literal and figurative senses across languages Topics include an apparent zero morpheme realisation of give in a Papuan language noun plus causative like suffix expressing the give concept in Nahuatl give and other ditransitive constructions in Zulu the complex verbal morphologies associated with give verbs in Chipewyan Cora and Sochiapan Chinantec the elaborate classificatory system found with give verbs in Chipewyan and Cora give have and take constructions in Slavic languages the expression of give in American Sign Language the origin of the German es gibt construction the extension of give to an adverbial marker in Thai Khmer and Vietnamese the syntax and semantics of Dutch give first language acquisition of possession terms **Studies in Language** ,2009 **Classificatory and Typological Studies in Languages of the Madang District** J. Erhard Voeltz, 2006-03-22 The twenty one papers that make up this volume reflect the broad perspective of African linguistic typology studies today Where previous volumes would present language material from a very restricted area and perspective the present contributions reflect the global interest and orientation of current African linguistic studies The studies are nearly all implicational in nature Based upon a detailed survey of a particular linguistic phenomenon in a given language or language area conclusions are drawn about the general nature about this phenomenon in the languages of Africa and beyond They represent as such a first step that may ultimately lead to a more thorough understanding of African linguistic structures This approach is well justified Taking the other road attempting to pick out linguistic details from often fairly superficially documented languages runs the risk that the data and its implications for the structure investigated might be misunderstood Consequentially only very few studies of this nature giving the very broad perspective the overview of a particular structure type covering the whole African continent are represented here *Linguistics in the Morning Calm*, 2, 1988 *Brinkman's Cumulatieve catalogus van boeken de in Nederland en vlaanderen zijn uitgegeven of herdrukte* ,1998 **Brinkman's cumulatieve catalogus van boeken** ,1999 Voorts een alphabetische lijst van Nederlandsche boeken in Belgi uitgegeven **The Cumulative Book Index** ,1999
