**The Logic of Organization** Alfred Kuhn, Robert D. Beam, 1982      **The Logic of Organization** Alfred Kuhn, Robert D. Beam, 1982      **The Logic of Organizations** Bengt Abrahamsson, 1993 Abrahamsson explores organizational theory by focusing on the genesis of organizations and the conditions for their continued existence He draws upon the classic theories of Marx Weber and Michels as well as more contemporary developments in organizational theory to present the unique theory that organizations are deliberately designed social      **Logics of Organization Theory** Michael T. Hannan, László Pólos, Glenn Carroll, 2007 Publisher description      **The Logic of Business Decision Making** Harvard Business Review, 1991      *The Org* Ray Fisman, Tim Sullivan, 2013-01-08 We create organizations because we need to get a job done something we couldn't do alone and join them because we're inspired by their missions and our paycheck But once we're inside these organizations rarely feel inspirational Instead we're often baffled by what we encounter clueless managers a lack of clear objectives a seeming disregard for data and the vast gulf between HR proclamations and our experience in the cubicle So where did it all go wrong In *The Org* Ray Fisman and Tim Sullivan explain the tradeoffs that every organization faces arguing that this everyday dysfunction is actually inherent to the very nature of orgs *The Org* diagnoses the root causes of that malfunction beginning with the economic logic of why organizations exist in the first place then working its way up through the org's structure from the lowly cubicle to the CEO's office Woven throughout with fascinating case studies including McDonald's al Qaeda the Baltimore City Police Department Procter and Gamble the island nation of Samoa and Google *The Org* reveals why the give and take nature of organizations while infuriating nonetheless provides the best way to get the job done You'll learn The purpose of meetings and why they will never go away Why even members of al Qaeda are required to submit Travel Expense reports What managers are good for How the army and other orgs balance marching in lockstep with fostering innovation Why it's the hospital administration not the heart surgeon who is more likely to save your life That CEOs often spend over 80% of their time in meetings and why that's exactly where they should be and why they get paid so much Looking at life behind the red tape *The Org* shows why the path from workshop to corporate behemoth is pockmarked with tradeoffs and competing incentives but above all demonstrates why organizations are central to human achievement      **Printers' Ink; the ... the complexity of the topic this thesis is focused on factors that hinder or help managers in recognizing business opportunities Focusing on incumbent firms this paper conducts further research to identify the main influencing factors including challenges vulnerabilities and obstacles The thesis is divided into six parts starting with a brief description of the research topic including the problem position and objective Second a literature review is conducted to summarize the state of research including theoretical foundations In today s scientific literature the two fields of research BMI OR are by no means treated independently from each other For the time being BMI and OR are considered independently of each other It is then shown exactly how current literature treats managerial OR with respect to BMI The results are then synthesized into a summary highlighting what is known and not known The areas of controversy in the literature are identified and questions are formulated that need further research The third part of the thesis consists of expert interviews Derived from the literature review a guideline for interviews is developed to treat the research gaps in an appropriate way and to meet the complexity of the task setting The explorative survey aims to identify the challenges and drivers of managerial OR in BMI and to identify approaches that have not yet been addressed in scientific literature to a significant extent The core of the analysis is the splitting of the BM into the elements value proposition value creation and value capture This ensures that all the facets of a company s BM are accurately addressed and form the basis for high quality results In order to cover a broad range the paper does not focus on a certain industry The interviews are conducted with an array of decision makers in organizations that have attempted or are currently attempting to innovate their BM at the business unit level or the corporate level     The Logic of Industrial Organization Philip Sargant Florence,1933     **Building Business** Nathaniel Clark Fowler,1893
