**Revista de estudios hispánicos** University of Alabama. Department of Romance Languages,2002      *Renaissance Talk*

Stanley Stewart, 1997 Proceeding on the assumption that confusion in Renaissance criticism arises from the way we talk and the vocabularies we use Stewart investigates typical assertions in recent criticism of Spenser Shakespeare Donne and Herbert using a Wittgensteinian method of investigation This involves taking a thing usually a statement apart If a statement under such scrutiny seems to make no sense or to lead critics into blind alleys then we must try to clarify the expression As Stewart asserts if we are to go on together in critical conversation then we must find a way to sort out the confusion that arises from our language While Wittgenstein's thought has long been utilized by literary critics this study represents the first sustained application of ordinary language philosophy to the vocabulary and assumptions of current criticism This study is an original and important book one likely to be of great interest to philosophers as well as literary theorists While Renaissance Talk is primarily concerned with Renaissance and early modern studies its patient but relentless exposure of what sometimes passes for scholarly criticism along with its exemplary corrective explication of misinterpreted passages from the writings of major authors makes it useful reading for a wide range of Literary Studies students and scholars     Shakespeare Studies
