**The Law Reports of the Special Court for Sierra Leone** Charles Chernor Jalloh, Simon Meisenberg, 2021-09-27 The Special Court for Sierra Leone was established through signature of a bilateral treaty between the United Nations and the Government of Sierra Leone in early 2002 making it the third modern ad hoc international criminal tribunal. It has tried various persons including former Liberian President Charles Ghankay Taylor for serious violations of international humanitarian law committed during the latter half of the Sierra Leonean armed conflict. It completed its work in December 2013. A new Residual Special Court for Sierra Leone based in Freetown and with offices in The Hague has been created to carry out its essential residual functions. This volume which consists of three books and a CD ROM and is edited by two legal experts on the Sierra Leone Court completes the set of edited Law Reports started in 2012. Together the Law Reports fill the gap of a single and authoritative reference source of the tribunal's jurisprudence. The law reports are intended for national and international judges, lawyers, academics, students and other researchers as well as transitional justice practitioners in courts, tribunals and truth commissions and anyone seeking an accurate record of the trials conducted by the Special Court for Sierra Leone. N.B. The hardback copy of this title contains a CD ROM with the decisions that are reproduced in the book and the trial transcripts. The e-book version does not. Considering the effect of three reform policies since Botswana's Independence in 1966 the book evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures. The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs from those same discourses. The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis.

and that each policy has improved access to general education but collectively have failed to improve its quality making suggestions for how this can be improved in the future As the first book of its kind to delve into education in Botswana from a single authored critical lens the book will be a highly relevant reading for academics researchers and post graduate students of African education comparative education education policy and curriculum studies
