The Merchant Class Of Medieval London 1300 15:

The Merchant Class of Medieval London, 1300-1500 Sylvia L. Thrupp, 1989 A social history of the merchant class of 14th and 15th century London **The Merchant Class of Medieval London, 1300-1500** Sylvia Lettice Thrupp, 1962

Hagiography Alfred Robert Kraemer, 1999 Malory's version of the Grail Quest in *The Morte Darthur* presents several difficulties for scholars most important whether it should be read as a chivalric romance or as a theological treatise like its source the French *Queste* This study looks at a popular fifteenth century English genre the saints lives and shows that Malory's Grail story reads very much like the saints lives written by Lydgate Capgrave and Bokenham which satisfied the same readership that Malory enjoyed As Vinaver observed Malory's Grail story had more in common with the lives of saints than with chivalric romance **The History of the Merchant Taylors' Company** Matthew P. Davies, Ann Saunders, 2004 One of the Great Twelve livery companies of the City of London the Merchant Taylors Company has been in existence for some seven hundred years This history charts the remarkable story of the Company and its members from its origins until the 1950s encompassing the lives and achievements of men such as Sir Thomas White founder of St John's College Oxford and the celebrated chronicler John Stow as well as the roles played by the Company in the City and beyond in different periods As well as looking in detail at the internal life of the Company the book will also focus on a number of important themes in the wider history of London These include trade and industry apprenticeship the impact of religious change the foundation of schools and other charities and the government and politics of the City In doing so the book contributes to an understanding of the aims and activities of the livery companies over the centuries their ability to adapt to changing circumstances and their relevance in a modern world far removed from that in which they were first established The History of the Merchant Taylors Company appeals to a wide range of people interested in the history of London It is fully illustrated with more than seventy five black and white and thirty colour illustrations It is attractively bound in cloth with a full colour dust jacket and matching cloth slipcase **Medieval Life**, 1995 *Studies in Carthusian Monasticism in the Late Middle Ages* Julian M.

Luxford, 2008 This volume examines Carthusian history and culture of the later Middle Ages with a primary but not exclusive focus on the English Province *Merchants, Mercantile Satire, and Problems of Estate in Late Medieval English Literature* Roger A.
