Lee Hamilton,2007-05-08 Justice a word of great simplicity and almost frightening scope When we were invited to edit a volume on justice in law we joked about the small topic we had been assigned Often humor masks fear and this was certainly one of those times Throughout the project we found daunting the task of covering even a fraction of the topics that usually fall under the umbrella of justice research in law Ultimately the organization of the book emerged from the writing of it Our introductory chapter provides a road map to how the topics weave together but as is so often the case it was written last not rst It was only when we had chapters in hand that we began to see how the many strands of justice research might be woven together Chapters 2 4 on the basic forms of justice procedural retributive and distributive are the lynchpin of the volume they provide the building blocks that permit us to think and write about each of the other substantive and applied chapters in terms of how they relate to the fundamental forms of justice In the large central section of the volume Chapters 5 9 the contributors address many ways in which the justice dimensions relate to one another Most important for law is the relationship of perceptions of procedural justice and the two types of substantive justice retributive and distributive *Revenge of the Pastors' Wives* Monolesia G. traces this positive force in three different kinds of evolution the natural selection of genes over millennia of course but also the cultural evolution within recorded history of ideas about the value of human life and the development of spirituality within the lifetime of each individual For thirty five years Dr Vaillant directed Harvard s famous longitudinal study of adult development which has followed hundreds of men over seven decades of life The study has yielded important insights into human spirituality and Dr Vaillant has drawn on these and on a range of psychological research behavioral studies and neuroscience and on history anecdote and quotation to produce a book that is at once a work of scientific argument and a lyrical meditation on what it means to be human *Spiritual Evolution* is a life s work and it will restore our belief in faith as an essential human striving
