The Mayors The Chicago Political Tradition:

The Mayors Paul Michael Green, Melvin G. Holli, A collection of essays examine the terms of Chicago mayors assess their accomplishments and weaknesses and analyze the way they used the power of their office **The Mayors** Paul M. Green, Melvin G. Holli, 2013-01-10 Originally released in 1987 The Mayors The Chicago Political Tradition gathered some of the finest minds in political thought to provide shrewd analysis of Chicago's mayors and their administrations Twenty five years later this fourth edition continues to illuminate the careers of some of Chicago's most respected forceful and even notorious mayors leaders whose lives were often as vibrant and eclectic as the city they served In addition to chapters on the individual mayors including a new chapter on Rahm Emanuel enhanced by an expert explanation of the current state of the city's budget by Laurence Msall president of the Civic Federation this new edition offers an insightful overview of the Chicago mayoral tradition throughout the city's history rankings of the mayors evaluated on their leadership and political qualities an appendix of Chicago's mayors and their years of service and additional updated materials Chicago's mayoral history is one of corruption and reform scandal and ambition This well researched volume more relevant than ever twenty five years after its first edition presents an intriguing and informative glimpse into the fascinating lives and legacies of Chicago's most influential leaders **Chicago's Modern Mayors** Dick Simpson, Betty O'Shaughnessy, 2024-01-23 Political profiles of five mayors and their lasting impact on the city Chicago's transformation into a global city began at City Hall Dick Simpson and Betty O'Shaughnessy edit in depth analyses of the five mayors that guided the city through this transition beginning with Harold Washington's 1983 election Washington Eugene Sawyer Richard M Daley Rahm Emmanuel and Lori Lightfoot Though the respected political science sociologist and journalist contributors approach their subjects from distinct perspectives each essay addresses three essential issues how and why each mayor won the office whether the City Council of their time acted as a rubber stamp or independent body and the ways the unique qualities of each mayor's administration and accomplishments influenced their legacy Filled with expert analysis and valuable insights Chicago's Modern Mayors illuminates a time of transition and change and considers the politicians who for better and worse shaped the Chicago of today **Challenging the Growth Machine** Barbara Ferman, 1996 Economic development and urban growth are the contested grounds of urban politics Business elites and politicians tend to forge pro growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component Urban politics is often shaped by this conflict which has intellectual as well as practical dimensions In some cities neighborhood interests have triumphed in others the pro growth agenda has prevailed In this illuminating comparative study Barbara Ferman demonstrates why neighborhood challenges to pro growth politics were much more successful in Pittsburgh than they were in Chicago Operating largely in the civic arena Pittsburgh's neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood

progressivism in housing and economic development policymaking In contrast the pro growth agenda in Chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent neighborhood organizing as a threat Consequently neighborhood demands for policymaking input were usually thwarted Besides revealing why the development policies of two important American cities diverged Ferman s unique comparative approach to this issue significantly expands the scope of urban analysis Among other things it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes Ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy To add an analytical and normative dimension to urban analysis she focuses on the non elite actors not just the economic and political elites who compose governing coalitions Ultimately Ferman takes a more holistic and balanced view of large cities than is typical for urban studies as she argues that neighborhoods are an important integral part of what cities are and can be For that reason especially her work will have a profound impact upon our understanding of urban politics

The New Political Culture Terry Nichols Clark, 2018-03-14 This volume introduces a new style of politics the New Political Culture NPC which began in many countries in the 1970s It defines new rules of the game for politics challenging two older traditions class politics and clientelism

The Other Eighties Bradford Martin, 2011-03-01 In this engaging new book Bradford Martin illuminates a different 1980s than many remember one whose history has been buried under the celebratory narrative of conservative ascendancy Ronald Reagan looms large in most accounts of the period encouraging Americans to renounce the activist and liberal politics of the 1960s and 70s and embrace the resurgent conservative wave But a closer look reveals that a sizable swath of Americans strongly disapproved of Reagan s policies throughout his presidency With a weakened Democratic Party scurrying for the political center many expressed their dissatisfaction outside electoral politics Unlike the civil rights and Vietnam era protesters activists of the 1980s often found themselves on the defensive struggling to preserve the hard won victories of the previous era Their successes then were not in ushering in a new era of progressive reforms but in effecting change in areas from professional life to popular culture while beating back an even more forceful political shift to the right Martin paints an indelible portrait of these and other influential but often overlooked movements from on the ground efforts to constrain the administration s aggressive Latin American policy and stave off a possible Nicaraguan war to mock shanties constructed on college campuses to shed light on corporate America s role in supporting the apartheid regime in South Africa The result is a clearer richer perspective on a turbulent decade in American life

Mayors and the Challenge of Urban Leadership Richard M. Flanagan, 2004-11 Big city mayors rank among the most powerful and colorful politicians in America Yet few books focus on the leadership challenges the occupants of the office face Mayors and the Challenge of Urban Leadership examines twelve case studies of mayoral leadership in seven cities from the New Deal era to the beginning of the 21st century The prospects for mayoral success or failure are driven by how mayors manage the fit between political commitments and the broader patterns of political competition City Hall powerhouses like Richard J Daley of Chicago 1954-76 David Lawrence of Pittsburgh 1946-58 Tom Bradley of Los Angeles 1973-83 and Robert F Wagner of New York 1954-65 came to power in times of political crisis They realigned politics in their cities to reinvigorate municipal government and bolster their power In contrast mayors with less redoubtable reputations like Mayors Sam Yorty of

Los Angeles 1961 73 Dennis Kucinich of Cleveland 1977 79 Jane Byrne of Chicago 1979 83 and Frank Rizzo of Philadelphia 1972 1980 were outsiders who lost their battles to challenge powerful political coalitions in their cities The new breed mayors of the 1990s among them Rudy Giuliani of New York Dennis Archer of Detroit and Ed Rendell of Philadelphia used modern campaign and governing techniques and scored surprising policy and political victories as a result Mayors and the Challenge of Urban Leadership concludes with a discussion of Mayor Michael Bloomberg of New York elected in the aftermath of the 9 11 attacks as an exemplar of the modern style of governing big cities in the 21st century *Chicago's Future* Dick W. Simpson, Richard Simpson, 1993 **Illinois Historical Journal**, 1998 Changing Urban Education Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation's leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future **Culture Wars and Local Politics** Elaine B. Sharp, 1999 This collection offers alternative explanations of local actions with a focus on conflict It features examples of experiences selected from various cities It examines how the responses of local governments to specific issues are influenced by such factors as political culture and institutions **The Politics of Urban America** Dennis R. Judd, Paul Kantor, 1998 How do public power and private resources interact in the

governance of cities What changes have occurred in our cities governing processes over the years This interesting resource covers the essential topics in urban political economy Issues of inequality ethnic and racial tensions and political fragmentation and spatial segregation have defined urban politics throughout the nation s history This collection of readings shows that the recent focus upon urban unrest crime poverty racial segregation and immigration are but the latest expression of long term development Historians politicians educators **Leadership and Politics** Bryan D. Jones,1989 In twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved The approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead **Journal of Illinois History** ,2003 Journal of the Illinois State Historical Society ,2001 **American National Biography** ,1999 *Journal of Finnish Studies* ,2001 **City Government in the United States** Alfred Ronald Conkling,1899
