The Middle East Quest For An American Policy:

Economic Aid and American Policy toward Egypt, 1955-1981 William J. Burns, 1985-06-30 Gamal Abdel Nasser's 1955 decision to barter Egyptian cotton for Soviet bloc weaponry thrust Egypt onto center stage in the Cold War in the Middle East. What Egypt needed most and what the United States was uniquely equipped to provide was economic aid. For the Egyptian government, eager to take rapid strides toward economic development but crippled by a burgeoning population, a paucity of arable land, and a meager reserve of foreign exchange, American economic aid promised to serve as an enormously important crutch. For American policymakers, economic assistance appeared to be an ideal means of developing American influence in Egypt. Few aid relationships in the last three decades can match the drama and significance of the U.S. Egyptian experience. This study shows how the American government attempted to use its economic aid program to induce or coerce Egypt to support U.S. interests in the Middle East in the quarter century following the 1955 Czech-Egyptian arms agreement. William J. Burns has analyzed recently released government documents and interviews with former policymakers to throw light on the use of aid as a tool of American policy toward the Nasser regime. He also offers valuable observations on the role of the American economic assistance program in the Sadat era.

American Policy Toward Israel Michael Thomas, 2007-06-11 This book explains the institutionalization of nearly unconditional American support of Israel during the Reagan administration and its persistence in the first Bush administration in terms of the competition of belief systems in American society and politics. Michael Thomas explains policy changes over time and provides insights into what circumstances might lead to lasting changes in policy. The volume identifies the important domestic, social, religious, and political elements that have vied for primacy on policy towards Israel and, using case studies such as the 1981 AWACS sale and the 1991 loan guarantees, argues that policy debates have been struggles to embed and enforce beliefs about Israel and about Arabs. It also establishes a framework for better understanding the influences and constraints on American policy towards Israel. An epilogue applies the lessons learned to the current Bush administration. American Policy toward Israel will be of interest to students of U.S. foreign policy, Middle Eastern politics, and international relations.

The Middle East University of Southern California, Institute of World Affairs, 1973 In many respects, this book represents a considerable departure from traditional works on international relations in the Middle East. Instead of offering partial explanations based on conventional approaches, this book attempts to incorporate studies with different methodological approaches and, with the Middle East Foreign Affairs specialists, offer balanced and linguistically neutral commentaries while marshalling empirical data to support their analyses. The result is a broad synthesis which helps the reader see the larger picture despite its complexity. The Middle East is considered as a subordinate system of the international political system. In Part 1, the chapters in this section focus on the nations of the area and their interactions within the subsystem. The papers also examine the implications of these interactions to the nations outside the Middle East. In Part 2, the scope of inquiry is enlarged to treat

interactions between the major world powers and the nations of the Middle East Papers in Part 3 focus upon American foreign policy in the Middle East This portion examines the roles of various special interest groups such as the oil companies Zionists the United States Congress newspapers and religious bodies as they relate to the formation of American policy for the Middle East In essence The Middle East is an international relations study of the Middle East Additionally it has new material the treatment of religious influences upon the Middle East the attitudes of some major newspapers towards the middle East conflict and the domestic position of Israel regarding the Arab Israeli conflict seldom discussed in other works
