in English as Monkey Dr Dudbridge examines a long tradition of earlier versions in narrative and dramatic form through which the great episodic cycle slowly took shape The two main fields of interest are popular culture and folklore and the development of Chinese vernacular literature Dr Dudbridge provides a very thorough survey of present knowledge about the whole topic and discusses critically a good deal of theorising about it This is a study for experts It uses Chinese characters both in text pages and in the bibliography which is very extensive The plates reproduce paintings carvings and sections of text relevant to the tradition The Paradoxical Structure of Existence Frederick D. Wilhelmsen, 2017-07-05 For metaphysicians who have imbibed the sober and inebriating teachings of Thomas Aquinas existence is an act the act which makes all things actually to be As the act of existence makes things to be essence makes them to be what they are Essence and the act of existence in other words are really distinct yet together they compose each of the things that are Such an understanding involves a number of paradoxes and Frederick D Wilhelmsen s articulation of them reveals his philosophical genius These paradoxes include the fact that the act of existence does not exist that it can be thought but not conceived by the mind and that truths about God can be known while He himself remains absolutely unknown Wilhelmsen argues the notion that the Christian faith and philosophical reason harmonize while remaining completely distinct from each other Writing in a captivating style Wilhelmsen begins with a discussion of the development strengths and limitations of the ancient Greek philosophical accounts of being Following that he develops such key topics as the problem of existence St Thomas Aquinas understanding of being critical analyses of Hegel s and Heidegger s doctrines of being existence as towards God and a metaphysical approach to the human person The final two chapters develop the sense in which metaphysical thinking is and is not shaped by historical and social factors **The Great Horse Or The War Horse : from the Time of the Roman Invasion Till Its Development Into the Shire Horse** Walter Gilbey, 1899 **Hippopathology: a Systematic Treatise on the Disorders and Lameness of the Horse** William Percivall, 1871 **The Chief Works of Benedict de Spinoza: De intellectus emendatione.
