[Linking Discourse Studies to Professional Practice](#) Lubie Grujicic-Alatriste,2015-08-06 This book examines how discourse analysts could best disseminate their research findings in real world settings. Each chapter presents a study of spoken or written discourse with authors putting forward a plan for how to engage professional practice in their work using this volume's Framework for Application. Techniques used include Conversation Analysis in combination with other methods, Genre Analysis in combination with other methods and Critical Discourse Analysis. Contributions are loosely grouped by setting and include the following: workplace and business settings, education settings, private and public settings, and government and media settings. The volume aims to link the end of research and the onset of praxis by helping analysts to move forward with ideas for dissemination, collaboration and even intervention. The book will be of interest to all researchers conducting discourse analysis in professional settings.

Second Language Conversations Rod Gardner, Johannes Wagner,2004-04-01 This collection is the first to consistently adopt Conversation Analysis as an approach to second language interaction. By examining first and second language speakers' participation in a wide range of activities, it challenges the dominant view of non-native speakers as deficient communicators. Proposing instead to understand second language users' conversational participation as interactional achievement, the book makes a powerful case for ethnomethodological re-specification in second language research. Professor Gabriele Kasper, University of Hawai'i. In this book, second language conversation is used to explore natural, casual talk between speakers in a second language. The contributors shift emphasis away from controlled contexts such as the classroom towards more sociable environments in which people go about their daily routines. English, German, French, Japanese, Finnish and Danish are all analyzed as second languages within a variety of professional, educational and sociable situations.
