The Methodist Riots:

The Methodist Riots Franklin Wilder, 1981 **Protest and the politics of space and place, 1789-1848** Katrina Navickas, 2015-12-01 This book is a wide ranging survey of the rise of mass movements for democracy and workers rights in northern England It is a provocative narrative of the closing down of public space and dispossession from place The book offers historical parallels for contemporary debates about protests in public space and democracy and anti globalisation movements In response to fears of revolution from 1789 to 1848 the British government and local authorities prohibited mass working class political meetings and societies Protesters faced the privatisation of public space The Peterloo Massacre of 1819 marked a turning point Radicals trade unions and the Chartists fought back by challenging their exclusion from public spaces creating their own sites and eventually constructing their own buildings or emigrating to America This book also uncovers new evidence of protest in rural areas of northern England including rural Luddism It will appeal to academic and local historians as well as geographers and scholars of social movements in the UK France and North America **Protest, Politics and Work in Rural England, 1700-1850** Carl Griffin, 2013-11-28 Rural workers in eighteenth and early nineteenth century England were not passive victims in the face of rapid social change Carl J Griffin shows that they deployed an extensive range of resistances to defend their livelihoods and communities Locating protest in the wider contexts of work poverty and landscape change this new text offers the first critical overview of this growing area of study

The Anti-foreign Riots in China in 1891 North China Herald, 1892 Riots in the Cities Servando Ortoll, Silvia M. Arrom, 1996-02-01 The goal of *Riots in the Cities* editors Silvia Marina Arrom and Servando Ortoll contend is to encourage Latin Americanists to rethink standard notions of urban politics before the populist era The actual political power wielded by the underprivileged city dwellers before the twentieth century has received little scholarly attention or has been downplayed Researchers often described urban inhabitants as having little influence over both their lives and on the politics of their day The elite were perceived as having firm control over the political process The seven essays in this reader analyze urban riots that broke out in major Latin American population centers between 1765 and 1910 Inspired by the works of Eric Hobsbawm and George Rud the authors find that the participants in these riots were far from irrational The crowds responded to specific social provocation and attacked property rather than people When taken together these essays challenge the notion that prior to 1910 power was strictly in the hands of the elite Lower class city residents too held strong opinions and acted on their convictions Most important their voices were not unheeded by those who officially wielded power and implemented social policies The Sense of the People Kathleen Wilson, 1995-07-28 The people the empire the political subject all three were contentious issues in the politics and culture of eighteenth century English cities This study explores how these three issues came to occupy central roles in the wide ranging political cultures of English towns between the Hanoverian Succession and the American war enabling a variety of groups outside the structures of the state to claim a stake in national
