**The State in Early Modern France** James B. Collins, 1995-09-28 This major new textbook addresses fundamental questions about the nature of the state in early modern Europe through an analysis of the most important continental state France Professor Collins abandons the traditional formulation of the absolute monarchy and presents in its place a state that evolved to meet the needs of the French elites Collins offers a detailed analysis of French society to provide the broader context for the development of the French state The model that emerges from his synthesis is one that relied more on persuasion and congruity of influence than on arbitrary authority and Collins argues that fundamental changes in French society made the monarchical ministerial state a dangerous anachronism by the 1750s leading to political impasse by the second half of the eighteenth century Collins offers a fundamental reinterpretation of the state relevant to historians and students of political thought

*Menstruation and Procreation in Early Modern France* Cathy McClive, 2016-03-03 Early modern bodies particularly menstruating and pregnant bodies were not stable signifiers Menstruation and Procreation in Early Modern France presents the first full length discussion of menstruation and its uncertain connections with embodied sex gender and reproduction in early modern France Attitudes to menstruation are explored in three inter linked arenas medicine moral theology and law across the sixteenth to the eighteenth centuries Drawing on a wide range of diverse sources including court records and private documents the author uses case studies to explore the relationship between the exceptional corporeality of individuals and attempts to construct menstrual norms reflecting on how early modern individuals lay or otherwise grappled with the enigma of menstruation She analyzes how early modern men and women accounted for the function recurrence and appearance of menstruation from its role in maintaining health to the link between other physiological and bodily processes including those found in both male and female bodies She questions the assumption that menstruation was exclusively associated with women by the second half of the eighteenth century arguing that whilst sex related menstruation was not sex specific even at the turn of the nineteenth Menstruation remains a contentious topic today This book is not therefore simply a study of periods in early modern France but is also of necessity an exploration about the nature and constitution of historical evidence particularly bodily evidence and how historians use this evidence It raises important questions about the concept of certainty and about the value of observation testimony expertise the nature of language and the construction of bodily truths about the body as witness and the body as evidence

**Crown and Nobility in Early Modern France** Donna Bohanan, 2001 This text analyzes the evolving relationship between the French monarchy and the French nobility in the early modern period New interpretations of the absolutist state in France have challenged the orthodox vision of the interaction between the crown and elite society By focusing on the struggle of central government to control the periphery Bohanan links the literature on collaboration and patronage with research on the social origins and structure of the provincial nobilities Three provincial examples Provence Dauphine and Brittany illustrate the ways in which

elites organized and mobilized by vertical ties of dependency based on patronage were co opted or subverted by the crown     **History Today** ,1995     *The Origines of Contemporary France* Taine,1876     *A History of Modern France* Jeremy D.
