State Repression and the Labors of Memory Elizabeth Jelin, Judy Rein, Marcial Godoy-Anativia, 2003 Hearing the news from South America at the turn of the millennium can be like traveling in time here are the trials of Pinochet the searches for the disappeared in Argentina the investigation of the death of former president Goulart in Brazil the Peace Commission in Uruguay the Archive of Terror in Paraguay a Truth Commission in Peru As societies struggle to come to terms with the past and with the vexing questions posed by ineradicable memories this wise book offers guidance Combining a concrete sense of present urgency and a theoretical understanding of social political and historical realities State Repression and the Labors of Memory fashions tools for thinking about and analyzing the presences silences and meanings of the past With unflappable good judgment and fairness Elizabeth Jelin clarifies the often muddled debates about the nature of memory the politics of struggles over memories of historical injustice the relation of historiography to memory the issue of truth in testimony and traumatic remembrance the role of women in Latin American attempts to cope with the legacies of military dictatorships and problems of second generation memory and its transmission and appropriation Jelin's work engages European and North American theory in its exploration of the various ways in which conflicts over memory shape individual and collective identities as well as social and political cleavages In doing so her book exposes the enduring consequences of repression for social processes in Latin America and at the same time enriches our general understanding of the fundamentally conflicted and contingent nature of memory A timely exploration of the nature of memory and its political uses

State Repression and the Struggles for Memory Elizabeth Jelin, 2004 Jelin seeks to clarify the often muddled debates over topics including the nature of memory the politics of struggles over memories of historical injustice the relation of historiography to memory the issue of truth in testimony traumatic remembrance problems of second generation memory

Smith,2024-09-30 This book documents and analyses Chilean university and school students opposition to the Pinochet regime during the latter years of the 1970s and the 1980s The book focuses on key episodes such as the establishment of cultural groups within the militarily controlled universities that enabled students to congregate and exchange ideas for the first time since the 1973 coup how university and secondary school students created their own democratic institutions to challenge the regime appointed bodies and how these eventually led to the restoration of the national federations that had been banned by the military government The author explores the key relationship between the vertically organised underground political parties and the horizontally organised broad non partisan organisations created by the students arguing that this structure brought advantages to the movement The students contribution to the national protests in the 1980s ensured that opposition to the regime was highly visible in the city centre resulting in a socially broadened opposition with a focus on youth rather than disenfranchisement and poverty Offering a detailed account of different forms of student activism this book evaluates the role of school and university students within the broader anti dictatorship opposition in Chile

literature and testimonies from TRC proceedings Angel traces how the TRC served as a mechanism through which memory trauma and visuality became apparent She shows how many Indigenous communities were able to use the TRC process as a way to claim agency over their memories of the schools Bringing to light the ongoing costs of transforming settler states into modern nations Angel demonstrates how the TRC offers a unique optic through which to survey the long history of colonial oppression of Canada's Indigenous populations **Oral History in Latin America** David Carey Jr,2017-03-27 This field guide to oral history in Latin America addresses methodological ethical and interpretive issues arising from the region's unique milieu With careful consideration of the challenges of working in Latin America including those of language culture performance translation and political instability David Carey Jr provides guidance for those conducting oral history research in the postcolonial world In regions such as Latin America where nations that have been subjected to violent colonial and neocolonial forces continue to strive for just and peaceful societies decolonizing research and analysis is imperative Carey deploys case studies and examples in ways that will resonate with anyone who is interested in oral history

[Latin America After Neoliberalism](#) Eric Hershberg, Fred Rosen, 2006 Beginning in the 1980s Latin America became a laboratory for the ideas and policies of neoliberalism. Now the region is an epicenter of dissent from neoliberal ideas and resistance to U.S. economic and political dominance. Latin America's political map is being redrawn. Already half a dozen progressive governments have swept into power in Chile, Bolivia, Uruguay, Argentina, Brazil, and Venezuela, and more may follow. Latin America After Neoliberalism is a fascinating look at what is perhaps the most politically dynamic region in the world and an authoritative guide to the political movements and leaders that are part of this historic change. Published in conjunction with the North American Congress on Latin America (NACLA) and written by leading progressive analysts of the region, this book takes on the full spectrum of contemporary issues in Latin America from political transformation to the role of women, indigenous people, and labor coalitions. Latin America After Neoliberalism attempts to make sense of the ongoing upheavals throughout the continent as it moves into the vanguard of an international rejection of neoliberalism for a new and viable progressive alternative.

[Other People's Pain](#) Martin Modlinger, 2011 This series promotes inquiry into the relationship between literary texts and their cultural and intellectual contexts in theoretical, interpretative, and historical perspectives. It has developed out of a research initiative of the German Department at Cambridge University, but its focus of interest is on the European tradition broadly perceived. Its purpose is to encourage comparative and interdisciplinary research into the connections between cultural history and the literary imagination generally.

Violence in Argentine Literature and Film (1989-2005) Elizabeth Montes Garcés, Carolina Rocha, 2010 Why has violence been a predominant topic in contemporary Argentine film and literature? What conclusions can be drawn from the dissemination of violent images and narratives that depict violence in Argentina? In Argentina, the problem of violence is rooted in the country's long experience with authoritarian rule as well as in more recent trends such as the weakening of the state and the rule of law brought about by neoliberal reforms. The eleven essays that make up *Violence in Argentine Literature and Film 1989-2005* seek to interpret and analyze the extent to which violence communicates structural inequalities or lines of fissure in contemporary Argentina resulting from the transformations that the state, the economy, and society in general have experienced during the past two decades. Applying a

variety of critical approaches the contributors explore violence in Argentine cultural productions as it relates to four broad themes the body as site of physical violence the legacies of Argentina's authoritarian past the collapse of the myth of the Argentine nation and the current battles over how to define particular social and geographical places in the context of an increasingly violent society
