State Resistance to Globalisation in Cuba Antonio Carmona Baez, 2004-03-20 Leading Marxist thinkers re evaluate Trotsky's key theories an ideal introduction for students *State Resistance to Globalisation in Cuba* Antonio Carmona Baez, 2004-03-20 Leading Marxist thinkers re evaluate Trotsky's key theories an ideal introduction for students **State Resistance to Globalisation in Cuba** Antonio Carmona Báez, 2004-03-20 How has the government and the people of Cuba actively resisted neo liberal globalisation How is it that the Cuban Communist Party continues to exist To what extent is Cuba affected by global trends and pressures Antonio Carmona Baez challenges those on the Left who romantically support the Cuban Revolution as well as those who claim that the free market is the ideal economic model for all states Instead he presents an intelligent account of the serious and contradictory consequences of Cuba's social political and economic restructuring The author revisits the history of the Cuban Revolution and the crisis after the fall of Cuba's superpower ally the Soviet Union to provide answers to these questions *Education, Citizenship, and Cuban Identity* Rosi Smith, 2016-07-13 This book explores how Cuba's famously successful and inclusive education system has formed young Cubans political social and moral identities in a country transfigured by new inequalities and moral compromises made in the name of survival The author examines this educational experience from the perspective of those who grew up in the years of economic crisis following the fall of the Soviet Union charting their ideals their frustrations and their struggle to reconcile revolutionary rhetoric with twenty first century reality *Reality of Labor in Cuba and the Social Responsibility of Foreign Investors* Jesús R. Mercader Uguina, 2006 Places particular emphasis on the observations of the Committee of Experts on the Application of Conventions and Recommendations and of the Committee of Freedom of Association of the ILO with regards to the violations of important ILO's Conventions Freedom of Association and Protection of the Right to Organise Convention 1948 No 87 Right to Organise and to Bargain Collectively Convention 1949 No 98 Discrimination Convention 1958 No 111 Employment Policy Convention 1964 No 122 Protection of Wages Convention 1949 No 95 Analyses also the Cuban labour regulations applicable to foreign investments and the question of the corporate social responsibility **To Defend the Revolution Is to Defend Culture** Rebecca Gordon-Nesbitt, 2015-09-01 Grounded in painstaking research To Defend the Revolution Is to Defend Culture revisits the circumstances which led to the arts being embraced at the heart of the Cuban Revolution Introducing the main protagonists to the debate this previously untold story follows the polemical twists and turns that ensued in the volatile atmosphere of the 1960s and 70s The picture that emerges is of a struggle for dominance between Soviet derived approaches and a uniquely Cuban response to the arts under socialism The latter tendency which eventually won out was based on the principles of Marxist humanism As such this book foregrounds emancipatory understandings of culture To Defend the Revolution Is to Defend Culture takes its title from a slogan devised by artists and writers at a meeting in October 1960 and adopted by the First National Congress of Writers and Artists the following August which sought to highlight the intrinsic

importance of culture to the Revolution Departing from popular top down conceptions of Cuban policy formation this book establishes the close involvement of the Cuban people in cultural processes and the contribution of Cuba's artists and writers to the policy and praxis of the Revolution Ample space is dedicated to discussions that remain hugely pertinent to those working in the cultural field such as the relationship between art and ideology engagement and autonomy form and content As the capitalist world struggles to articulate the value of the arts in anything other than economic terms this book provides us with an entirely different way of thinking about culture and the policies underlying it **Women's Work in Special**

Period Cuba Daliany Jerónimo Kersh, 2019-02-14 The abrupt loss of Soviet financial support in 1989 resulted in the near collapse of the Cuban economy ushering in the almost two decades of austerity measures and severe shortages of food and basic consumer goods referred to as the Special Period Through the innovative framework of individual and collective memory Daliany Jerónimo Kersh brings together analysis of press sources and oral histories to offer a compelling portrait of how Cuban women cleverly combined various forms of paid work to make ends meet Disproportionately impacted by the economic crisis given their role as primary caregivers and household managers and unable to survive on devalued state salaries alone women often employed informal and illegal earning strategies As she argues this regression into gendered work such as cooking sewing cleaning reselling and providing sexual services precipitated by the post Soviet crisis to a large extent marked a return to pre revolutionary gendered divisions of labor *Sociological Perspectives on Sport* David

Karen, Robert E. Washington, 2015-03-02 *Sociological Perspectives on Sport* The Games Outside the Games seeks not only to inform students about the sports world but also to offer them analytical skills and the application of theoretical perspectives that deepen their awareness and understanding of social processes linking sports to the larger social world With six original framing essays linking sport to a variety of topics including race class gender media politics deviance and globalization and 37 reprinted articles this text reader sets a new standard for excellence in teaching sports and society *South America,*

Raby, 2006 Is socialism dead since the fall of the Soviet Union What is the way forward for the Left D L Raby argues that Cuba and above all Venezuela provide inspiration for anti globalization and anti capitalist movements across the world Another world is possible but only by winning power on a popular democratic basis Raby argues that the future lies not in the dogmatism of the Old Left nor in the spontaneous autonomism of Holloway or Negri Instead it is to be found in broad popular movements with bold leadership Examining the success of key leaders including Hugo Chávez Fidel Castro and the Sandinistas in Nicaragua Raby shows that it is more necessary than ever to take power peacefully if possible but with the strength that comes from popular unity backed by force where necessary In this way democratic power can be built which may or may not be socialist depending on one's definition but which represents the real anti capitalist alternative for the twenty first century *South America, Central America and the Caribbean* 2007 Europa Publications, 2006-09-14 An
