Metadata Management in Statistical Information Processing Karl A. Froeschl, 2013-12-21 As the integration of statistical data collected in various subject matter domains becomes more and more important in several socio economic etc investigation areas the management of so called metadata a formal digital processing of information about data gains tremendously increasing relevance Unlike current information technologies e g database systems computer networks facilitating merely the technical side of data collation a coherent integration of empirical data still remains cumbersome and thus rather costly very often because of a lack of powerful semantic data models capturing the very meaning and structure of statistical data sets Recognizing this deficiency Metadata Management proposes a general framework for the computer aided integration and harmonization of distributed heterogeneous statistical data sources aiming at a truly comprehensive statistical meta information system

Statistical and Scientific Database Management Maurizio Rafanelli, John C. Klensin, Per Svensson, 1989-02-08 The Fourth International Working Conference on Statistical and Scientific Database Management IV SSDBM held on June 21 23 1988 in Rome Italy continued the series of conferences initiated in California in December 1981 The purpose of this conference was to bring together database researchers users and system builders working in this specific field to discuss the particular points of interest to propose new solutions to the problems of the domain and to expand the topics of the previous conferences both from the theoretical and from the applicational point of view The papers of four scientific sessions dealt with the following topics knowledge base and expert system data model natural language processing query language time performance user interface heterogeneous data classification storage constraints automatic drawing ranges and trackers and arithmetic coding Two other special sessions presented work on progress papers on geographical data modelling spatial database queries user interface in an Object Oriented SDB interpretation of queries graphical query language and knowledge browsing front ends The conference also had three invited papers on topics of particular interest such as Temporal Data Statistical Data Management Requirements and Knowledge Based Decision Support Systems included in this volume The introductory paper by M Rafanelli provides both an introduction to the general concepts helpful to people outside the field and a survey of all the papers in these Proceedings

Furthermore there were three open panels Papers by the chairmen contributions of the panelists and a summary of the respective discussions are included in this volume too

Compstat Rudolf Dutter,Wilfried Grossmann,2013-12-20 This book assembles papers which were presented at the biennial symposium in Computational Statistics held under the auspices of the International Association for Statistical Computing IASC a section of ISI the International Statistical Institute This symposium named COMPSTAT 94 was organized by the Statistical Institutes of the University of Vienna and the University of Technology of Vienna Austria The series of COMPSTAT Symposia started 1974 in Vienna Meanwhile they took place every other year in Berlin Germany 1976 Leiden The Netherlands 1978 Edinburgh Great Britain 1980 Toulouse France 1982 Prague Czechoslovakia 1984 Rome Italy 1986 Copenhagen Denmark 1988 Dubrovnik Yugoslavia 1990 and Neuchâtel Switzerland 1992 This year we are celebrating the 20th anniversary in Vienna Austria It has obviously been observed a movement from traditional computational statistics with emphasis on methods which produce results quickly and reliably to computationally intensive methods like resampling procedures Bayesian methods dynamic graphics to very recent areas like neural networks accentuation on spatial statistics huge data sets analysis strategies etc For the organization of the symposium new guidelines worked out by the IASC in written form were in effect this time The goal was to refresh somehow the spirit of the start of COMPSTAT 74 keep the tradition of the series and ensure a certain continuity in the sequence of biannual meetings
