## **The Dating Maze:**

**Truth in Dating** Susan Campbell, PhD, 2011-02-08 Millions of single people whether never married or divorced put a lot of energy into meeting and dating new people but because they don't invest their true selves their efforts often go nowhere. To counter this trend Susan M Campbell presents an approach to dating that many consider radical. Be honest about yourself and ask for what you want up front. Campbell shows people how to have fun by flirting truthfully, date without getting ahead of the relationship, enjoy the freedom of being themselves, relate to their dates with honesty, realistically examine what a romantic partner can and can't offer in the way of fulfillment and happiness, and move forward when the time is right or say goodbye if it's not working. On the way to finding the love of their lives, readers gain the tools they need to successfully manage the entire process.

**Xiphophorus Helleri** Richard Hunter Gude, 1962     Epic Matthew Cronin, 2011-03-10 A top tennis writer tells the story of the greatest Wimbledon, the greatest U.S. Open, and the greatest rivalry in the history of the game. The epic 1980 Wimbledon final that ended with John McEnroe's defeat by his idol Bjorn Borg is considered the greatest tennis match ever. The U.S. Open final later that year when McEnroe got his revenge is considered the greatest U.S. Open ever. These two matches marked McEnroe's transformation from tennis player into an American icon, the high point of tennis's gigantic leap into the national consciousness, and the beginning of Borg's rapid and surprising decline. This book takes you back to that amazing summer at the height of the golden age of tennis. Includes fascinating details about John McEnroe and Bjorn Borg, both on and off the court, from grueling practice sessions to late night partying. Packed with stories and anecdotes of top tennis players and coaches including Vitas Gerulaitis, Mary Carillo, Lennart Bergelin, and others. Highlights a pivotal moment in the evolution of the game, from quiet to loud, from wood to metal racquets, and from European to American dominance. Written by veteran tennis writer and analyst Matthew Cronin. Whether you're a longtime tennis fan or a recent convert, Epic will give you a deeper understanding of the game and of two of the most amazing players ever to have played it.

## The Idea of the Labyrinth from Classical Antiquity through the Middle Ages Penelope Reed Doob, 2019-03-15 Ancient and medieval labyrinths embody

paradox according to Penelope Reed Doob Their structure allows a double perspective the baffling fragmented prospect confronting the maze treader within and the comprehensive vision available to those without Mazes simultaneously assert order and chaos artistry and confusion articulated clarity and bewildering complexity perfected pattern and hesitant process In this handsomely illustrated book Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages Doob first examines several complementary traditions of the maze *topos* showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity She then describes two common models of the labyrinth and explores their formal implications the unicursal model with no false turnings found almost universally in the visual arts and the multicursal model with blind alleys and dead ends characteristic of literary texts This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze as Doob's examination of a vast array of materials from the classical period through the Middle Ages suggests She concludes with linked readings of four labyrinths of words Virgil's *Aeneid* Boethius *Consolation of Philosophy* Dante's *Divine Comedy* and Chaucer's *House of Fame* each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works Readers in such fields as Classical literature Medieval Studies Renaissance Studies comparative literature literary theory art history and intellectual history will welcome this wide ranging and illuminating book
