A Parent's Guide to the First Three Years Burton L. White,1980 Abstract An updated version for parents of infants and toddlers integrates new findings into the original material and addresses the questions most often asked by parents Practical methods for identifying avoiding or coping with child rearing problems are suggested The importance of the

emotional and educational development of a child during the first 3 years of life is stressed emphasizing the parent's contribution. Descriptions of developmental stages and individual variations based on 30 years of observations and research are provided. Some general concerns dealt with include working parents, parental roles, discipline, early detection of developmental problems, sibling influence, play, and childbirth method. Toys are recommended for specific levels of development. Behavior patterns of young children are described to provide a framework to help parents create an atmosphere conducive to successful child rearing. **Nurturing Naturally: A Parent's Guide to Natural Wellness to Raising**
