The Power Of Babel:

The Power of Babel John H. McWhorter, 2002-01 There can be few subjects of such widespread interest and fascination to anyone who reads as the strange ways of languages. In this wonderfully entertaining and fascinating book John McWhorter shares his expertise as a linguist in both senses: he both teaches linguistics at UC Berkeley and speaks half a dozen languages fluently to introduce us to the natural history of language. In Russia, a creole of Russian and Norwegian once spoken by trading fur trappers, the ways in which Yiddish, a dialect of German, has been influenced by the grammar of Polish and an Australian Aboriginal language which only has three verbs. Along the way we learn how English absorbed French at two stages of its history, giving us the Norman French warranty and the standard French guarantee that Japanese has been infused with Chinese vocabulary at four distinct periods and why Danish, Norwegian, and Swedish are best regarded as three dialects of Scandinavian. Witty, brilliant, and authoritative, this book is a must for anyone who is interested in language as sheerly enjoyable as non-fiction gets.

The Power of Babel Ali Al'Amin Mazrui, Alamin M. Mazrui, 1998 Linguists estimate that there are currently nearly 2 000 languages in Africa, a staggering figure that is belied by the relatively few national languages. While African national politics, economics, and law are all conducted primarily in the colonial languages, the cultural life of the majority of citizens is conducted in a bewildering Babel of local and regional dialects, making language itself the center of debates over multiculturalism, gender studies, and social theory. In *The Power of Babel*, the noted Africanist scholar Ali Mazrui and linguist Alamin Mazrui explore this vast territory of African language. *The Power of Babel* is one of the first comprehensive studies of the complex linguistic constellations of Africa. It draws on Ali Mazrui's earlier work in its examination of the triple heritage of African culture in which indigenous, Islamic, and Western traditions compete for influence. In bringing the idea of the triple heritage to language, the Mazruis unravel issues of power, culture, and modernity as they are embedded in African linguistic life. The first section of the book takes a global perspective, exploring such issues as the Eurocentrism of much linguistic scholarship on Africa; part two takes an African perspective on a variety of issues from the linguistically disadvantaged position of women in Africa to the relation of language, policy, and democratic development; the third section presents a set of regional studies centering on the Swahili language; its exemplification of the triple heritage. *The Power of Babel* unites empirical information with theories of nationalism and pluralism among others to offer the richest contextual account of African languages to date.

Kōjin Karatani's Philosophy of Architecture Nadir Lahiji, 2024-02-06 In this book Nadir Lahiji introduces Kōjin Karatani's theoretical philosophical project and demonstrates its affinity with Kant's critical philosophy founded on architectonic reason. From the ancient Greeks we have inherited a definition of the word philosophy as Sophia, wisdom. But in his book *Architecture as Metaphor*, Kōjin Karatani introduces a different definition of philosophy. Here Karatani critically defines philosophy not in association with Sophia but in relation to foundation as the Will to Architecture. In this novel definition resides the notion that in Western thought a crisis persistently reveals itself with every

attempt to build a system of knowledge on solid ground This book reveals the implications of this extraordinary exposition This is the first book to uncover Kjin Karatani's highly significant ideas on architecture for both philosophical and architectural audiences
