The Power Of Reason:

The New Schelling Judith Norman, Alistair Welchman, 2004-04-01 Friedrich Wilhelm Joseph Von Schelling 1775 1854 was a colleague of Hegel Holderlin Fichte Goethe Schlegel and Schiller Always a champion of Romanticism Schelling advocated a philosophy which emphasized intuition over reason which maintained aesthetics and the creative imagination to be of the highest value At the same time Schelling's concerns for the self and the rational make him a major precursor to existentialism and phenomenology The New Schelling brings together a wide ranging set of essays which elaborate the connections between Schelling and other thinkers such as Marx Nietzsche Freud Sartre Deleuze and Lacan and argue for the unexpected modernity of Schelling's work Contributors Manfred Frank Jürgen Habermas Iain Hamilton Grant Joseph Lawrence Odo Marquand Judith Norman Alberto Toscano Michael Vater Alistair Welchman Slavoj Žižek **Think Better** Ulrich L. Lehner, 2021-11-16 In a world dominated by half truths illogic and intellectual laziness Think Better helps readers understand what reason is and how to use it well Reason is a powerful tool not only for finding our way in an increasingly complex world but also for growing intellectually and emotionally This short accessible volume unlocks the dynamics of human reason helping readers to think critically and to use reason confidently to solve problems It enables readers to think more clearly and precisely about the world and it tackles a number of profound philosophical questions without getting bogged down with jargon Topics include knowledge identity leadership creativity and empathy Written in an accessible style that integrates philosophy illustrations personal anecdotes and statistical data this book is well suited for use in undergraduate classical school and home school contexts It is an invaluable guide for anyone interested in gaining better reasoning skills and a more rational approach to life **On Knowing** Richard P. McKeon, 2017-02-09 As a philosopher Richard McKeon spent his career developing Pragmatism in a new key specifically by tracing the ways in which philosophic problems arise in fields other than philosophy across the natural and social sciences and aesthetics and showed the ways in which any problem pushed back to its beginning or taken to its end is a philosophic problem The roots of this book On Knowing The Social Sciences are traced to McKeon's classes where he blended philosophy with physics ethics politics history and aesthetics This volume the second in a series leaves behind natural science themes to embrace freedom power and history which McKeon argues lay out the whole field of human action The authors McKeon considers Hobbes Machiavelli Spinoza Kant and J S Mill show brilliantly how philosophic methods work in action via analyses that do not merely reduce or deconstruct meaning but enhance those texts by reconnecting them to the active history of philosophy and to problems of ethics politics and history The waves of modernism and post modernism are receding Philosophic pluralism is now available fully formulated in McKeon's work spreading from the humanities to the social sciences **The Descent of Man, and Selection in Relation to Sex ...
