the digital computer in obtaining the numerical solution of numerical problems its influence in the formulation of new and old scientific problems in new terms and to some of the effects of the computer revolution on educational and social systems The new opportunities for mathematical research presage Bellman concludes a renaissance of mathematics in human affairs by involving it closely in the problems of society      **U.S. Government Research Reports** ,1964      **Applied dynamic programming** Richard Ernest Bellman,1962      Dynamic Programming of Continuous Processes Richard Bellman,1954
