The Power of Words Christopher Henley,2018-11-11 The Words we use become the life we choose Our words are an outward expression of what we are experiencing physically emotionally financially in fact in every aspect of our life By giving thought real thought to the words we use every day we bring about dramatic changes in our life But that takes effort and who wants to do that Who knows how to do that We are hypnotized from a very early age into thinking that words are just words When we pay attention to the impact our words have on others however we realize just how powerful they are When we learn more about the power words can have not only on our everyday life but how deeply they can affect our level of happiness and well being we start to think differently about the words we use when speaking to others about the words we use when we talk to ourselves When we look around at how people speak to each other how we speak to others it is easy to see it may be time to take another look at the Power of Words Theologies of War and Peace Among Jews, Christians, and Muslims Albert B.
