The Practical Answer

Charles William Eliot

The Practical Answer:

The Dynamic Individualism of William James James O. Pawelski, 2012-02-01 The Dynamic Individualism of William James analyzes James's rich and complex thought through an examination of his individualism. A central theme of James's writings, individualism underlies his basic views on freedom, society, government, psychology, education, religion, pragmatism, and metaphysics. Yet until now, no one has undertaken a careful study of this important aspect of James's thought. With close readings of texts that include *The Principles of Psychology*, *The Varieties of Religious Experience*, and *A Pluralistic Universe*, James O. Pawelski engages the range of contexts in which James discusses individualism, offers a refreshingly new reading of his work, and in seeking to resolve James's own psychology, presents an original and convincing case for his dynamic individualism.

Proceedings of the 9th International Conference on Technical and Vocational Education and Training (ICTVET 2022) Ambiyar, Unung Verawardina, Oskah Dakhi, 2023-05-01 This is an open access book. Indonesia, as a member of ASEAN, is now facing the ASEAN Economic Community (AEC) 2016. The AEC will support the ASEAN's transformation into a region that guarantees free movement of goods, services, capital, and skilled labor. This will make ASEAN an even more dynamic and competitive region. In preparation for the AEC, the ASEAN member countries have ventured to improve the comparability and connectivity of their TVET systems. As an important component of human resources development, TVET is expected to play an active role in preparing the successful EAC. The implications of technological, economic, and social trends are intervening factors that refine pedagogical strategies, leading to the molding of TVET as a more effective platform to catalyze pragmatic approaches to prepare the workforce for the new imperatives of the world of work. Regional integration and harmonization of TVET in the region have become key concerns, and at the same time, the strength of the ASEAN region. They are considered the overarching interventions needed in TVET to address major issues and challenges.

Constitutional Literacy Christopher Dreisbach, 2016-09-19 This book considers the status of constitutional literacy in the United States along with ways to assess and improve it. The author argues that pervasive constitutional illiteracy is a problem for both law enforcement agencies and for ordinary citizens. Based on the author's decades of teaching in law enforcement agencies around the country, this book argues for the moral and pragmatic value of constitutional literacy and its application in twenty-first century society.

Rational Emotive Behaviour Therapy Windy Dryden, Michael Neenan, 2007-01-24 Rational Emotive Behaviour Therapy (REBT) is practised all over the world and has many therapeutic, occupational, and educational applications. *Rational Emotive Behaviour Therapy: 100 Key Points and Techniques* presents 100 main features of this system to help therapists improve their practice. These essential points have been derived from the author's own practice and also from their experience as trainers and supervisors of novice rational emotive behaviour therapists. Beginning with an introduction outlining the basics of the approach, this book offers thorough coverage of all the vital topics, including therapeutic alliance, issues, educational issues, dealing with clients' misconceptions about REBT.

encouraging clients to work at change dealing with obstacles to client change using the system in a creative way This concise and highly practical book will be invaluable to psychotherapists and counsellors in training and practice ensuring comprehensive understanding of the REBT approach

Evidence, Respect and Truth Liat Levanon, 2022-11-03 Can we rely solely on statistics when we judge what is true and just This book takes a holistic approach to addressing this question It considers the legal trial as its paradigmatic case study before analysing a wide range of different cases including profiling the use of algorithms to predict students grades and the authorisation of automated cars The book suggests that when we make judgements about the truth or about justice approximations are not good enough Truth and justice are uncompromising They must be so because the value that underlies them both is respect and respect takes no compromise Thus in the search for truth as in the search for justice a body of evidence that imposes a statistical compromise will not do Only evidence that in principle allows reaching the truth and doing justice is good evidence Once such evidence has been traced the burden is on us to make good use of the evidence and reach truth and justice We might or might not succeed but once we have done our best on evidence that allows success our judgements are justified and as such they can resolve conflicts over the truth and over justice
