The Practice Of Psychotherapy

Lewis R. Wolberg

The Practice Of Psychotherapy:

1st National Conference on the Practice of Psychotherapy in Africa, 1996 *Values And Ethics In The Practice of Psychotherapy And Counselling* Fiona Palmer Barnes, Lesley Murdin, 2001 The work of every school of psychotherapy and every therapist is inevitably structured by a value system and requires codes of ethics and practice This book addresses the conscious and unconscious aspects of the value system in which therapists are situated Values and Ethics in the Practice of Psychotherapy and Counselling explores the central issues through the experience of the contributors each of whom is well known in this field Each chapter will raise questions for the reader which will stimulate individual thinking about practice or can form a basis for discussion and debate for training or graduate groups The book is firmly rooted in practice Each chapter deals with a different aspect of the psychotherapist's work beginning with the general underlying principles continuing through matters of technique and on to contextual issues Finally the book moves to the outer world politics and spirituality as ways of connecting inner and outer social and individual The arrangement of chapters allows for flexibility and creativity while providing a coherent structure Values and Ethics in the Practice of Psychotherapy and Counselling is recommended reading for psychotherapists psychoanalysts and counsellors in training and practice **The collected works of C.G. Jung**

Carl Gustav Jung, 1954 **The Practice of Psychotherapy** Lewis Robert Wolberg, 1982 *The Collected Works of C.G. Jung* C. G. Jung, 1970 *The Practice of Psychotherapy (Psychology Revivals)* Lewis R. Wolberg, 2014-08-01 Freud once humorously remarked that Anyone who wants to make a living from the treatment of nervous patients must clearly be able to do something to help them It is amazing how frequently this simple precept is ignored and when a patient does not get well how often the failure is attributed to lack of proper motivation diminutive ego strength latent schizophrenia and a multitude of assorted resistances Difficulties that arise during therapy are not due to a deliberate conspiracy of neglect on the part of the therapist They usually come about because of obstructive situations that develop in work with patients with which the therapist is unprepared to cope During his psychiatric career the author who spent time both teaching and supervising collected and collated questions from students and graduate therapists who had raised concerns about psychotherapy that related to such obstructive situations Originally published in 1982 this volume contains both those questions and his answers
