Don't let it become the Ultimate Financial Mistake. The BMW E46 3 Series is a legend. It has perfect 50/50 weight distribution, hydraulic steering that talks to your hands and a timeless design. It is arguably the best car BMW ever built. It is also a 20 year old German car held together by plastic clips and prayers. If you go to the forums you'll hear horror stories about subframes cracking, engines overheating in seconds and repair bills that cost more than the car itself. The purists will tell you that unless you have thousands of dollars for special tools and factory parts you shouldn't own one. They're wrong. Meet Hank Pop Weaver. He's not a BMW service writer who speaks in part numbers. He's a retired mechanic who believes that a car is just a machine, whether
