Taking Flight National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Education and Training for Civilian Aviation Careers, 1997-03-14
The commercial aviation industry is a major part of the U S transportation infrastructure and a key contributor to the nation's economy. The industry is facing the effects of a reduced role by the military as a source of high quality trained personnel, particularly pilots and mechanics. At the same time it is facing the challenges of a changing American workforce. This book is a study of the civilian training and education programs needed to satisfy the work force requirements of the commercial aviation industry in the year 2000 and beyond with particular emphasis on issues related to access to aviation careers by women and minorities.
