## **Taking Sex Differences Seriously:**

Taking Sex Differences Seriously Steven E. Rhoads, 2005-05 Most contemporary discussions of sex differences assume that they are determined by society rather than biology It is society that teaches little girls to be feminine and little boys to be masculine society that tells women to respond to babies and men to respond to sports Reflecting the fashionable idea that male and female roles have been socially constructed most commentators speak of gender instead of sex Because men and women are virtually interchangeable so the argument goes men should do an equal share of domestic and childrearing work so that women can compete equally outside the home There s only one problem with this beguiling vision of androgyny Whatever we might like to believe as Dr Steven Rhoads shows sex distinctions remain a deeply rooted part of human nature In Taking Sex Differences Seriously Rhoads assembles a wealth of scientific evidence showing that these differences are hardwired into our biology They range from the subtle men get a chemical high from winning while women get one from nursing to the profound women with high testosterone levels are more promiscuous more competitive and more conflicted about having children than those with average levels Rhoads explores disparities in aggression and dominance in sexuality and nurturing He shows how denial of these differences has helped to create the sexual revolution fatherless families and policies such as Title IX and the call for universal day care But while insisting that we must take sex differences seriously Rhoads also advocates discouraging some natural tendencies like men s desire for irresponsible sex and encouraging others like women s greater interest and talent in caring for babies In this provocative exploration of the masculine and feminine Steven Rhoads dispels contemporary clichés and spotlights biological realities Meticulously researched and elegantly written Taking Sex Differences Seriously is a groundbreaking look at the way we are His Brain, Her Brain Walt Larimore, MD, Barb Larimore, 2009-07-13 She reads people and he reads manuals He doesn t ask for directions and she doesn t appreciate his advice She is so mysterious and he is so practical He does not seem to listen and she seems so emotional The list goes on and on In a world where men and women are constantly told they are not different His Brain Her Brain shows couples what they instinctively know men and women are different and these divinely designed differences when understood make a marriage stronger and happier Combining the latest brain research along with their experiences in over three decades of marriage and counseling Dr Walt and Barb Larimore explain how the unique design of each sex particularly the unique brain and hormones of each results in different habits tendencies and nuances of thought and action *Viri Dignitatem: Personhood, Masculinity and Fatherhood in the Thought of John Paul II* David H. Delaney, 2023-10-30 In numerous works both before and after his papal election John Paul II offers ample reflection on the themes of personhood relationality and sexual complementarity but while he advances a clearly articulated theology of femininity and motherhood as in his apostolic letter *Mulieris Dignitatem* he might seem to offer no equivalent treatment of masculinity and fatherhood In *Viri Dignitatem* David Delaney seeks to surface and systematize the rich but often overlooked theology of masculinity and

fatherhood that is found dispersed throughout John Paul II's writings demonstrating its essentiality for understanding his larger anthropology. In the first part of the study Delaney treats the foundations of this anthropology establishing John Paul II's thought on personhood, relation and human action. Building on this the second part considers sexual differentiation drawing out from John Paul II's teaching on the body, femininity, Mary and the Church his corresponding perspective on masculinity which is itself rooted in nuptial complementarity and the revealing work of Christ. The third part focuses on John Paul II's theology of fatherhood which Delaney presents as both a natural and spiritual vocation that is based on the Fatherhood of God as this is manifested and imaged by the incarnate Son. Finally the fourth part provides a synthetic assessment of this theology of masculinity and fatherhood showing its coherence and addressing contemporary criticisms and misinterpretations. At a time of accelerating crises of sexuality, the family and fatherhood, Delaney's *Viri Dignitatem* provides a welcome and important elaboration of John Paul II's teaching on the dignity and vocation of man.

**Taking Sides: Clashing Views in Gender** Jacquelyn W. White, 2008-03-06 This debate style reader is designed to introduce students to controversies in gender studies. The readings which represent the arguments of leading psychologists and other social commentators reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. Students will be exposed to a rich, exciting and emotionally and politically charged body of theory, research and practice. **TAKING SIDES: GENDER** containing 20 issues organized into six parts presents hotly debated issues in contemporary scholarly and public discourse. Students will actively develop critical thinking skills by analyzing opposing viewpoints and reach considered judgments. The issues will challenge students to consider what is sex, what is gender and when is either relevant and why. They will discover that what might appear to be binary, biologically based distinction is so much more. An Instructor's Resource Guide available online only accompanies the book. For each issue the following have been provided: a synopsis of each author's position on the issue, teaching suggestions and multiple choice and essay questions. The teaching hints consist of suggestions for generating class discussion around the themes raised by the clashing essays.

*Human Sexuality* Simon LeVay, Sharon McBride Valente, 2006 This textbook introduces students to the diversity of human sexual expression and the diversity of perspectives from which sexuality can be viewed from biology and medicine, evolutionary theory to cognitive science and social psychology. The authors encourage critical thinking and enable students to contribute constructively and non-judgmentally to the social debate on sexual issues. The second edition presents new coverage on gay marriage, sex education, minority issues, recent brain imaging studies, advances in contraceptive technology and STD treatment and sexual arousal disorders. The text is also more accessible with reorganized chapters on women's and men's bodies and enhanced pedagogy.

*New Books on Women and Feminism*, 2003 **The Family in the New Millennium** Thomas B. Holman, A. Loveless, 2006-12-30 A remarkable team of contributors based across 19 countries explores and explains events worldwide affecting the natural family: married father and mother with biological children.

detailing concepts and benefits of natural family that have been taken for granted across centuries but are now being challenged in many ways. These scholars, many admittedly taking stands that may be deemed politically incorrect, conclude that natural family is being threatened and is vital to provide common ground among all societies, cultures, and religious traditions. Psychologists, sociologists, economists, theologians, lawyers, health care professionals, and award-winning journalists are among the chapter authors, as are Nobel Prize Laureate Gary Becker, U.S. Department of Health Assistant Secretary for Children and Families Wade Horn, and former Prime Minister of Malaysia Mahathir Bin Mohamad. Whether or not you agree with their arguments, science and conclusions you'll want to know what these influential figures are saying. Addressing many lightning rod issues from divorce and abortion to euthanasia and same-sex marriage, writers here span the world from the United States, Canada, and the United Kingdom to Australia, Turkey, India, and China. Intellectuals included are associated with institutions from Brigham Young University, Georgetown School of Medicine, and the Boston College School of Law to the University of Geneva and the Maxim Institute in New Zealand.

**The Family in the New Millennium: Marriage and human dignity** A. Scott Loveless, Thomas Holman, 2007     *Students with Emotional and Behavioral Disorders* Douglas Cullinan, 2007. This text provides a broad coverage of the nature, causes, assessment approaches, and interventions of emotional and behavioral disorders. It presents readers with an exploration of the assumptions behind intervention practices and curricula. This emphasis enables educators and professionals to select and use appropriate assessments for effective instruction and classroom management techniques. Back cover.
