Talisman Persian:

Talisman Walter Scott, 2022-05-26 The second of Tales of the Crusaders The Talisman is set in Palestine during the Third Crusade 1189-92 Scott constructs a story of chivalric action apparently adopting a medieval romance view of the similarities in the values of both sides But disguise is the leading theme of the tale it is not just that characters frequently wear clothing that conceals their identity but that professions and cultures hide their true nature In this novel the Christian leaders are divided by a factious criminality and are contrasted to the magnanimity and decisiveness of Saladin the leader of the Moslem armies In a period when the west was fascinated with the exotic east Scott represents the Moslem other as more humane than the Christian west The Talisman is one of Scott's great novels It is a superb tale It is also a bold departure as for the first time Scott explores not cultural conflict within a country or society but in the opposition of two world religions

Iran's Shadow Weapons Jonathan W. Hackett, 2025-07-01 Surveillance assassination and war by proxy all ingredients for an unending disaster that never seems to end for those exposed to the wrath of the Islamic Republic of Iran Despite the prevalence of these and other malign acts few observers understand why and how the regime chooses these tools of fear and disruption Even fewer can foil them In this first work of its kind the author draws upon two decades of experience to lay bare the calculus structure and execution of Iran's foreign intelligence activities covert actions and unconventional warfare operations This book reveals how the regime's shadowy work is driven by a warring mixture of rampant paranoia unshakable greed and cold rationality He meticulously reveals a policy toolkit wielded for self interest and survival supported by strategies to eliminate opposition figures stifle dissent and promote defense in depth around Iran Before any others the Iranian people are simultaneously the regime's greatest source of insecurity and its chief target in a series of policies taking hold since 1979
