Emmanuel Macron, 2017-11-13 The bestselling memoir by France's president Emmanuel Macron. Some believe that our country is in decline, that the worst is yet to come, that our civilisation is withering away. That only isolation or civil strife are on our horizon. That to protect ourselves from the great transformations taking place around the globe we should go back in time and apply the recipes of the last century. Others imagine that France can continue on its slow downward slide. That the game of political juggling, first the Left then the Right, will allow us breathing space. The same faces and the same people who have been around for so long. I am convinced that they are all wrong. It is their models, their recipes that have simply failed France. As a whole, France has not failed. In *Revolution*, Emmanuel Macron, the youngest president in the history of France, reveals his personal story and his inspirations and discusses his vision of France and its future in a new world that is undergoing a great transformation that has not been known since the Renaissance. This is a remarkable book that seeks to lay the foundations for a new society, a compelling testimony and statement of values by an important political leader who has become the flag bearer for a new kind of politics.
