

ASTRO &  
ASTRO VAN  
ENGINEERING

though it may always present the possibility, it may not often pose a significant problem in the practical use of the technique. This is the situation that is usually met in the analysis of the data from a single experiment. If this is the case, it is necessary only that a single point be measured, and one can be content with a single measurement of the dependent variable.

These books are intended for the use of secondary school students following a course of study in civics, history, government, and economics. They are designed to help the student understand the nature and operation of government and how it affects his daily life.

After the inspection you
