The Aging Enterprise:

The Aging Enterprise Carroll L. Estes, 1979 Dr Carroll Estes has long been recognized as one of our most influential social gerontologists beginning with the publication of the *Aging Enterprise*. The process of aging over the life course is affected by biological and psychological factors but a sociological perspective makes an important contribution to our understanding of aging by explicating how social economic and political forces shape the aging experience. This book quickly achieved iconic status among gerontologists and other social scientists as one of the founding texts in critical gerontology.

Aging, Society and the Life Course Leslie A. Morgan, 2007 As our aging population grows ever larger it is increasingly important to understand how adults age and what we can do to provide up to date care to ensure their well being as an integral part of society. Leslie Morgan and Suzanne Kunkel understand that this phenomenon is about much more than just the physical or biological aspects of growing older and have put together a comprehensive text on the impact of society and sociology on the aging process. Use this text to explore the diversity of the aging population and dispel the major stereotypes surrounding the elderly. Learn about aging through all the layers of social context from family life to politics and economics. And through this approach come to see how aging is more than just an individual process it is a process that effects the direction of our society as a whole. For the Student Web sites of interest and key terms defined at the end of each chapter. Real life stories and essays on love sex music medicine and crime. For the Professor Assignment ready reading in a One Chapter a Week format. Questions for discussion and review at each chapter end. Applying Theory sections place the lesson of each chapter in a clear real world setting. Instructor's Guide Now Available. Thompson, Edward H. Thompson (Jr.), 1994-06-07 In this multidisciplinary portrait of men and their concerns in later life the contributors use both a life course and gendered perspective to point out that the image and self image of men are continually reconstructed throughout the life cycle. Issues examined include the position of older men in society and the changes wrought in their status and roles over time men's relationships to spouse children grandchildren and friends and policy implications. *The Handbook of Social Studies in Health and Medicine* Gary L.
