The Adventure Of The Copper Beeches:

The Adventure of the Copper Beeches Sir Arthur Conan Doyle, P. James Macaluso, 2016-09-01 Sherlock Holmes the world's only unofficial consulting detective was first introduced to readers in *A Study in Scarlet* published by Sir Arthur Conan Doyle in 1887. It was with the publication of *The Adventures of Sherlock Holmes* however that the master sleuth grew tremendously in popularity later to become one of the most beloved literary characters of all time. In this book series the short stories comprising *The Adventures of Sherlock Holmes* have been amusingly illustrated using only Lego brand minifigures and bricks. The illustrations recreate through custom designed Lego models the composition of the black and white drawings by Sidney Paget that accompanied the original publication of these adventures appearing in *The Strand Magazine* from July 1891 to June 1892. Paget's iconic illustrations are largely responsible for the popular image of Sherlock Holmes including his deerstalker cap and Inverness cape details never mentioned in the writings of Conan Doyle. This uniquely illustrated collection which features some of the most famous and enjoyable cases investigated by Sherlock Holmes and his devoted friend and biographer Dr John H Watson including *A Sandal in Bohemia* and *The Red Headed League* is sure to delight Lego enthusiasts as well as fans of the Great Detective both old and new. LEGO is a trademark of the LEGO Group of Companies. The LEGO Group has not been involved in nor has it in any other way licensed or authorised the publication of this book. **THE ADVENTURE OF THE COPPER BEECHES** A young lady named Violet Hunter visits Baker Street seeking the advice of Sherlock Holmes on whether to accept a job as governess which commands a generous salary but with some peculiar conditions. Two weeks after ultimately accepting the position Miss Hunter calls Holmes to *The Copper Beeches* an estate in Hampshire to look into the singular and at times terrifying behaviour of her employers.

The Adventure of the Copper Beeches Arthur Conan Doyle, 1986 [Adventure of the Copper Beeches](#) Vincent Goodwin, 2012-09-01 Miss Violet Hunter has been offered a position as a governess but the employer has some mysterious requests including cutting her beautiful hair. Miss Hunter presents the situation to Sherlock Holmes for his opinion. Follow Holmes as he solves the mystery of the adventure of the Copper Beeches. Aligned to Common Core Standards and correlated to state standards. Graphic Planet is an imprint of Magic Wagon, a division of ABDO.

The Adventure of the Copper Beeches Sir Arthur Conan Doyle, 1986 Arthur Conan Doyle's Sherlock Holmes is perhaps the world's most famous detective. The Focus on Sherlock Holmes series is devoted to bringing the books to an even wider audience. George Cavendish has added explanations as footnotes to help those readers who are not familiar with some of the phrases used by the author and his characters after all the stories were written over 120 years ago. Some of the author's phrases are still in use in modern day British English and these are described to make the text clearer to English speakers from outside of the UK or to those who do not speak English as a first language. Also included is some background information on places, names and terms used in the story. The book features the original drawings from the first publication.

To the man who loves art for its own sake remarked Sherlock Holmes tossing aside the advertisement sheet of the *Daily Telegraph* it is frequently in its least important and lowliest manifestations that the keenest pleasure is to be derived. It is pleasant to me to observe Watson that you have so far grasped this truth that in these little records of our cases which you have been good enough to draw up and I am bound to say occasionally to embellish you have given prominence not so much to the many causes célèbre and sensational trials in which I have figured but rather to those incidents which may have been trivial in themselves but which have given room for those faculties of deduction and of logical synthesis which I have made my special province.
