The Italian campaign was one of the most debated of the Second World War splitting the American and British allies and causing great disharmony After the fall of Rome and the surrender of Italy the invasion of Normandy led to the Italian campaign becoming a sideshow as the D Day Dodgers fought their way through Italy to the Alps against a grinding defence and extreme weather In a sequence of 200 wartime photographs Simon Forty sums up the major events of the conflict from the landings on Sicily to the crossing of the Po Commanded first by Sir Harold Alexander and then Mark Clark the Allied armies US Fifth and British Eighth drew men not only from Britain the United States France and Poland but from all over the Commonwealth from Australia Canada India New Zealand and South Africa as well as such other countries as Brazil Czechoslovakia Greece and Palestine The devastation caused by the war in the cities towns and countryside is part of the story but perhaps the most powerful impression is made by the faces of the soldiers themselves as they look out from the Italian front of so long ago [Allied Military Administration of Italy, 1943-1945](#) Charles Reginald Schiller Harris, 1957

**Index** Micheal Clodfelter,1992    **Germany and the Axis Powers from Coalition to Collapse** R. L. DiNardo,2005 It seemed that whenever Mussolini acted on his own it was bad news for Hitler Indeed the Führer's relations with his Axis partners were fraught with an almost total lack of coordination Compared to the Allies the coalition was hardly an alliance at all Focusing on Germany's military relations with Italy Romania Hungary and Finland Richard DiNardo unearths a wealth of information that reveals how the Axis coalition largely undermined Hitler's objectives from the Eastern Front to the Balkans Mediterranean and North Africa DiNardo argues that the Axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation's fundamental mistrust of the others Germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because Hitler insisted on separate pacts with each nation Italy and Finland often found themselves conducting counterproductive parallel wars on their own DiNardo's detailed assessments of ground naval and air operations reveal precisely why the Axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example His analysis covers coalition warfare at every level demonstrating that some military services were better at working with their allies than others while also pointing to rare successes such as Rommel's effective coordination with Italian forces in North Africa In the end while some individual Axis units fought with distinction if not on a par with the vaunted Wehrmacht and helped Germany achieve some of its military aims the coalition's overall military performance was riddled with disappointments Breaking new ground DiNardo's work enlarges our understanding of Germany's defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare    **Forearmed** Anthony Clayton,1993    Oxford Companion to World War II Ian Dear,M.
