The iPod Book Scott Kelby, 2007 The world's best selling iPod book is back and fully updated with all the new iPods and features in iTunes 7. This book is so popular because it is a book of a different breed. There are basically two kinds of iPod books: 1. The tell me all about it kind, which includes in-depth discussions on compression algorithms, debates about analog vs digital equalizers, and tutorials on how to export your playlist in Unicode format. 2. There's this book. It's not a tell me all about it book; it's a show me how to do it book. Award-winning author Scott Kelby shows you step by step how it's all done using the same casual plain English style that has made him one of the world's best selling technology authors. You'll learn how to do only the most important, most requested and just plain cool things you're going to want to do with your iPod so you can start having fun with it today. Right now. Each page covers just one topic complete with full color photos making it easy to find just what you're looking for fast. Plus it shows you how to get the most from the iTunes Store, how to watch movies and TV shows with your iPod, how to integrate your iPod into your car, which iPod accessories are hot, how to use photos with your iPod and everything you need to know about the latest models in the iPod family including the iPod Nano and the redesigned tiny iPod Shuffle. It's all here in the only book of its kind and you're gonna love it.
