subtraction thus each set of word problems typically includes both kinds After this it is time to study regrouping in subtraction with three digit numbers There are three cases Regrouping 1 ten as 10 ones such as is needed for 546 229 Regrouping 1 hundred as 10 tens such as is needed for 728 441 Regrouping two times 1 ten as 10 ones and 1 hundred as 10 tens such as is needed for 725 448 Regrouping with zero tens such as is needed for 405 278 Here first we regroup 1 hundred as 10 tens then 1 ten as 10 ones In this workbook we ONLY study cases 1 and 2 from the list above Again students first practice the regrouping process with visual models You could use base ten blocks instead At the end of the workbook students encounter bar graphs again They also play Euclid's game which is meant as a fun supplemental lesson You may omit it if time does not allow [Math Addition and Subtraction Grades 2-3](#) Carol Tiernon, 1983-06 Contains blackline masters with activities for teaching addition and subtraction Cheerful illustrations make learning more fun Grades 2-3
