In just 10 minutes a day Coaching on the Go gives you the tools to be an effective leader As a busy leader you know that coaching is an important tool for you to bring out the best in people in a most human and natural way Coaching on the Go shows you how to coach your team in bite sized chapters so you can learn on the go on a flight on your commute to work and put it into action right away Split into two parts 1 The Main Flight learn the core coaching skills by following the story of the aircrew chapter by chapter Each chapter covers a key coaching issue with activities to help you deal with similar situations in your leadership 2 The Pilot's Manual develop your expertise even further by taking a deeper dive into the skills of coaching With advanced coaching models and leadership theory you'll find extra activities and ideas to develop your coaching prowess with colleagues team members and others around you Great leaders coach And with this book so can you Great leaders coach And with this book so can you Tim Pilkington Chief Executive World Vision UK In a fast paced world Coaching On the Go is structured to get to the heart of the matter quickly making the content digestible and actionable Selina Millstam VP Global Head of Talent Management Ericsson Most coaching books tell you how to coach This one shows you Paul Smith bestselling author of Lead with a Story and The 10 Stories Great Leaders Tell A novel and useful way to think about coaching Relevant to every leader Sheelagh Whitaker Global NED and author of Evaline A Feminist's Tale Relations in Public Erving Goffman, 2009-12-31 Until recently to be in a public place meant to feel safe That has changed especially in cities Urban dwellers sense the need to quickly react to gestural cues from persons in their immediate presence in order to establish their relationship to each other Through this communication they hope to detect potential danger before it is too late for self defense or flight The ability to read accurately the informing signs by which strangers indicate their relationship to one another in public or semi public places without speaking has become as important as understanding the official written and spoken language of the country In Relations in Public Erving Goffman provides a grammar of the unspoken language used in public places He shows that the way strangers relate in public is part of a design by which friends and acquaintances manage their relationship in the presence of bystanders He argues that taken together this forms part of a new domain of inquiry into the rules for co mingling or public order Most people give little thought to how elaborate and complex our everyday behavior in public actually is For example we adhere to the rules of pedestrian traffic on a busy thoroughfare accept the usual ways of acting in a crowded elevator or subway car grasp the delicate nuances of conversational behavior and respond to the rich vocabulary of body gestures We behave differently at weddings at meals in crowds in couples and when alone Such everyday behavior though generally below the level of awareness embodies unspoken codes of social understandings necessary for the orderly conduct of society **Wilson's Tales of the Borders, Etc** John Mackay Wilson, 1877 **The Minnesota Test of**
