Heller, 2013-12-19 First Published in 1997 North American Women Artists of the Twentieth Century A Biographical Dictionary was created to fill a gap of there being a comprehensive reference work like this available even

though the bibliography in English on various aspects of the history of women artists has grown exponentially during the past ten years As researchers the editors have been frustrated many times by being unable to locate basic information about many of the artists included in this volume especially those working outside the United States This leads directly to another reason for producing this particular kind of reference book to try and create a better understanding between and among the artists and art audiences in these countries

Angeles County Museum of Art,2000 Produced in conjunction with the Los Angeles County Museum of Art s exhibition of the same name this program explores the evolution of late 20th century ceramics Using interviews and examples of their works Ruth Ducksworth Wayne Higby John Mason Ron Nagle Otto Natzler Richard Shaw and Peter Voulkos discuss such themes as Abstract Expressionism Funk vessels form and function and the debate over the decorative arts versus the fine arts     A Century of Ceramics in the United States, 1878-1978 Garth Clark,1979 From the Inside Cover The history of American ceramics from the celebration of the Centennial 1876 to the present day is rich varied and relatively undocumented It is a period studded with men and women of genius uncompromising ethical standards and engaging eccentricity The purpose of the exhibition at the Everson Museum of Art Syracuse New York and this book based on it is to present the history of American ceramics its aesthetic and its influence and so provide a perspective Comprised of over 400 pieces the majority of which are illustrated in this book the exhibition and book span one hundred years of creative endeavor In the decade by decade presentation a variety of styles philosophies and techniques of ceramic artists is shown in this first study focusing on the role of ceramics in the modern decorative and fine arts of the United States The journey of self discovery and purpose that is surveyed here is an extraordinary one It takes the ceramic medium in the United States from an imitative exploratory stance in the late nineteenth century to a vanguardist role in the 1950s and beyond The achievement is twofold On the one hand the American ceramists had established a beachhead for a traditional craft medium in the fine arts redefining the vessel aesthetic and presenting ceramic sculpture as an intimate and meaningful alternative to the cerebral quality of postwar metal sculpture More broadly however it reflects the triumph of a nation that has been able to achieve a cultural voice and identity through the arts in the brief space of one hundred years     Art Index Alice Maria Dougan,Margaret Furlong,1975
