American Jewish Desk Reference American Jewish Historical Society, 1999 This all

encompassing reference book covers virtually every subject pertaining to Jews in the United States. The sheer volume of information on the subjects and people relative to the Jewish experience in the United States is what makes this book so impressive. Arranged by subject from Feminism, Intermarriage and Conversion Rituals and Celebrations, Business, Education and Sports to Art and Entertainment, chapters include A-Z and chronological listings of events, people and more. Included in this book are descriptions of the many noteworthy Jewish Americans who had a profound effect on our country, including Ruth Bader Ginsberg, Harvey Milk, Calvin Klein, Peggy Guggenheim, Mark Rothko, Woody Allen and Gloria Steinem, just to name a few. This book brings together the issues and figures of contemporary Judaism in the United States in an adult manner, unlike any other reference book of its kind.

Jewish Quarterly, 2004 **Truffles and Trash** Kelly Alexander, 2024-10-25 On a fragile planet with spreading food insecurity, food waste is a political and ethical problem. Examining the collaborative, sometimes scrappy institutional and community efforts to recuperate and redistribute food waste in Brussels, Belgium, Kelly Alexander reveals it is also an opportunity for new forms of sociality. Her study plays out across a diverse set of locations, including a food bank with ties to the EU, a social restaurant serving low-cost meals made from supermarket surplus by an emergent immigrant labor force, and a social inclusion program in an urban market with a zero-food-waste pop-up caf. Alexander argues that these efforts, in concert with innovative policy, effectively recirculate wasted food to new publics and produce what she terms a spectrum of edibility. According to Alexander, these models face challenges, including reproducing the very power dynamics across race, class, and citizenship status they seek to circumvent. They also mirror the challenges of the everyday operations of the European social welfare state, which is increasingly reliant on NGOs to meet provisioning promises. Yet she finds that they also move the needle forward to reduce food waste across one city, providing an example for major urban centers around the world.
