The Katalan Collection of Italian Drawings ,1995 **Italian drawings from the collection of Jak Katalan** ,2002

Sixteenth-century Italian Drawings in New York Collections William Griswold,Linda Wolk-Simon,Metropolitan Museum of Art (New York, N.Y.),1994 Focusing exclusively on examples from the 16th century the great age of Italian drawing this stunning volume published to accompany an early 1994 exhibition at The Metropolitan Museum of Art includes 124 prized works from The Metropolitan the Pierpont Morgan Library the Cooper Hewitt Museum and some 20 private collections in New York The catalogue is organized by school and within each section chronologically by artist Each drawing is illustrated and presented with a discussion that places it in the context of the artist s career and explores the purpose for which it was made Paper edition unseen 35 Annotation copyright by Book News Inc Portland OR *The Antonio II Badile Album of Drawings: The Origins of Collecting Drawings in Early Modern Northern Italy* Evelyn Karet,2017-07-05 Evelyn Karet s in depth study of the Antonio II Badile Album the earliest known example of an art collection pasted onto the pages of a book is both focused and broad in its appeal to those interested in the early modern era The provenance of the album is traced from its assemblage to the seventeenth century collection of Conte Lodovico Moscardo to its dismantling by the dealer Francis Matthiesen in the 1950s establishing that the volume conserved in the Frits Lugt Collection is not an original but a replica produced by Matthiesen Although Antonio II must be celebrated as the collector of the drawings new paleographic analysis has identified the actual compiler of the album after Antonio s death providing a terminus post quem in the late 1530s or early 1540s Karet enlarges the focus from the album itself to the historic tradition of collecting drawings in northern Italy in the early modern era before Vasari for which the album provides a new point of reference Throughout the book Karet discusses the Badile family examines the individual drawings in the book investigates the contacts between artists and humanists their rich diverse collections and the humanist mind set that fostered the appreciation of drawings She explores notable early drawing collections in northern Italy and the role of northern Italy as a center of collection in the sixteenth and seventeenth centuries The book concludes with two appendices a reconstruction of the original album including a discussion of the reconstruction process suggestions about what the album originally looked like and a page by page guide to its contents and a detailed analysis of Francis Matthiesen s career This book opens up new areas of inquiry into an overlooked subject **The Italian Drawings of the Fifteenth and Sixteenth Centuries in the Teyler Museum** Teylers

Museum,Carel van Tuyll van Serooskerken,2000 **Guercino** Julian Brooks,2006-12-04 Why is a cross eyed man from the small town of Cento in northern Italy now regarded as one of the greatest draftsmen of the seventeenth century Featuring important Guercino drawings from the Courtauld Institute of Art Gallery London and the J Paul Getty Museum Los Angeles this volume looks deeply into the nature of the artist s extraordinary talent for drawing Drawn to Italian Drawings Nicholas Turner,Jean Goldman,2009 Published to accompany an exhibition at the Art Institute of Chicago from October 28

2008 to January 18 2009 Italian Drawings from the Collection of Jak Katalan Sotheby's (Firm),2002 **Reactions to the Master** Francis Ames-Lewis,2017-09-29 The immense effect that Michelangelo had on many artists working in the sixteenth century is widely acknowledged by historians of Italian Renaissance art Yet until recently greater stress has been placed on the individuality of these artists styles and interpretation rather than on the elucidation of their debts to others There has been little direct focus on the ways in which later sixteenth century artists actually confronted Michelangelo or how those areas or aspects of their artistic production that are most closely related to his reveal their attitudes and responses to Michelangelo s work *Reactions to the Master* presents the first coherent study of the influence exerted by Michelangelo s work in painting and sculpture on artists of the late Renaissance period including Alessandro Allori Agnolo Bronzino Battista Franco Francesco Parmigianino Jacopo Pontormo Francesco Salviati Raphael Giorgio Vasari Marcello Venusti and Alessandro Vittoria The essays focus on the direct relations such as copies and borrowings previously underrated by art historians but which here form significant keys to understanding the aesthetic attitudes and broader issues of theory advanced at the time

Genoa Carmen Bambach,Nadine Orenstein,William Griswold,Metropolitan Museum of Art (New York, N.Y.),1996 This publication is a study of technically masterful even boldly experimental graphic art that illustrates Genoa s growth by the seventeenth century into an important regional art school Metropolitan Museum of Art website Italian Drawings Sotheby's,2002 *Ludovico Carracci and the Art of Drawing* Babette Bohn,2004 The primary goal of *Ludovico Carracci and the Art of Drawing* is to provide a ground breaking model for a new kind of book on Italian drawings In addition to covering the traditional scholarly terrain of chronology style and connoisseurship this book utilizes up to date art historical methods including considerations of the historical context of Bologna its impact on Ludovico s art and a new portrayal of the role of women and women artists in the city Bologna is perhaps the last great artistic capital in Europe that still offers the specialist the possibility for ground breaking studies This quotation from a recent exhibition at the Metropolitan Museum testifies to the rich possibilities for research in this field In 1983 Sydney Freedberg wrote a book on the three pivotal innovators in Italian painting at the turn of the seventeenth century Caravaggio Annibale Carracci and the latter s cousin Ludovico Carracci 1555 1619 The dramatic intensity of Ludovico s paintings exerted a seminal influence on the direction of Italian Baroque painting His highly individual renditions of his subjects make him one of the great interpreters of Italian art Working in Bologna the second city of the papal states during the period of the Counter Reformation Ludovico was well positioned to reshape religious painting during a period that demanded change Ludovico was a prolific draftsman who produced over 300 extant drawings His drawings offer the key to his artistic personality because he conceived his original subjects and planned his dramatic compositions in these sheets Like most Italian artists of the early modern period Ludovico developed his ideas in drawings and began painting only after his conceptions had been finalized Thus his drawings reveal how he thought how his ideas changed and which features of a composition were most important or challenging to his creative imagination Such

drawings as these have tremendous appeal to modern audiences who are attracted by the excitement of watching the creative process in progress rather than seeing only the painting that represents the end of that process The Carracci have always been considered some of the most important draftsmen in Italian art for their revival of drawing the human figure from life in the course of designing paintings But Ludovico's drawings were not only preparatory studies for pictures He was also an innovator in developing finished compositional drawings that were produced as works of art in their own right made for sale to a new audience of private collectors in Bologna This book will be indispensable for university libraries museum libraries and the private libraries of all scholars dealers and collectors with a serious interest in Italian art As a study of a major artist that breaks new methodological ground the book will bring together fresh insights on the artist and his culture with a useful compendium of illustrations and will provide a model for future studies of draftsmen from the early modern period
