**Dickens and the Imagined Child** Peter Merchant, Catherine Waters, 2016-04-22 The figure of the child and the imaginative and emotional capacities associated with children have always been sites of lively contestation for readers and critics of Dickens In Dickens and the Imagined Child leading scholars explore the function of the child and childhood within Dickens s imagination and reflect on the cultural resonance of his engagement with this topic Part I of the collection examines the Dickensian child as both characteristic type and particular example proposing a typology of the Dickensian child that is followed by discussions of specific children in Oliver Twist Dombey and Son and Bleak House Part II focuses on the relationship between childhood and memory by examining the various ways in which the child s eye view was reabsorbed into Dickens s mature sensibility The essays in Part III focus upon reading and writing as particularly significant aspects of childhood experience from Dickens s childhood reading of tales of adventure they move to discussion of the child readers in his novels and finally to a consideration of his own early writings alongside those that his children contributed to the Gad s Hill Gazette The collection therefore builds a picture of the remembered experiences of childhood being realised anew both by Dickens and through his inspiring example in the imaginative creations that they came to inform While the protagonist of David Copperfield that favourite child among Dickens s novels comes to think of his childhood self as something which he left behind upon the road of life for Dickens himself leafing continually through his own back pages there can be no putting away of childish things

**Rural Australia and the Great War** John McQuilton, 2000 In the cities and in the countryside of Australia the Great War of 1914 1918 marched to somewhat different tempos John McQuilton evokes the wartime experience of all rural Australians by capturing the moods of the country towns and hamlets of North Eastern Victoria Every aspect of the war recruiting fund raising and eventually homecoming and the design of the war memorial was marked by a mixture of small minded local politics heroism and sacrifice and grief Individuals whether journalists town councillors or leading local citizens shaped the recurring battles on the home front The conscription debates were particularly vicious as the countryside exhausted its pool of volunteers long before the cities In small communities the shirker could not hide everyone knew which families had sent men to the front and who had genuine reasons for staying home This intimacy worked in favour of the many German Australians country people knew them as trusted neighbours but in the cities they were reviled as enemy aliens Rural Australia and the Great War is unique among writing on the First World War in creating a richly detailed picture of

wartime in a particular part of country Australia For country and city readers alike this is fascinating social history
