Slaves Desire:

Bondmen and Rebels David Barry Gaspar, 1993-02-28 Originally published in 1985 and available for the first time in paperback *Bondmen Rebels* provides a pioneering study of slave resistance in the Americas Using the large scale Antigua slave conspiracy of 1736 as a window into that society David Barry Gaspar explores the deeper interactive character of the relation between slave resistance and white control

The Line through the Heart J. Budziszewski, 2014-04-29 The suicidal proclivity of our time writes the acclaimed philosopher J Budziszewski is to deny the obvious Our hearts are riddled with desires that oppose their deepest longings because we demand to have happiness on terms that make happiness impossible Why And what can we do about it Budziszewski addresses these vital questions in his brilliantly persuasive new book *The Line Through the Heart* The answers can be discovered in an exploration of natural law a venture that with Budziszewski as our expert guide takes us through politics religion ethics law philosophy and more Natural law the author states plainly but provocatively is a fact about human beings as surely as we have hands and feet we have the foundational principles of good and evil woven into the fabric of our minds From this elemental fact emerges a natural law theory that unfolds as part of a careful study of the human person Thus Budziszewski shows natural law forms a common ground for humanity But this common ground is slippery While natural law is truly an observable part of human nature human beings are hell bent quite literally on ignoring it The mere mention of the obligations imposed on man by his nature will send him into a rage In this sense *The Line Through the Heart* explores natural law as not simply a fact and a theory but also a sign of contradiction While investigating the natural law and its implications Budziszewski boldly confronts and offers a newly integrated view of a wide range of contemporary issues including abortion evolution euthanasia capital punishment the courts and the ersatz state religion being built in the name of religious toleration Written in Budziszewski's usual crystalline style *The Line Through the Heart* makes clear that natural law is a matter of concern not merely to scholars it touches how each of us lives and how all of us live together His profoundly important examination of this subject helps us make sense of why habits that run against our nature have become second nature and why our world seems to be going mad **The Cambridge**

Companion to the African American Slave Narrative Audrey Fisch, 2007-05-31 The slave narrative has become a crucial genre within African American literary studies and an invaluable record of the experience and history of slavery in the United States This Companion examines the slave narrative's relation to British and American abolitionism Anglo American literary traditions such as autobiography and sentimental literature and the larger African American literary tradition Special attention is paid to leading exponents of the genre such as Olaudah Equiano Frederick Douglass and Harriet Jacobs as well as many other less well known examples Further essays explore the rediscovery of the slave narrative and its subsequent critical reception as well as the uses to which the genre is put by modern authors such as Toni Morrison With its chronology and guide to further reading the Companion provides both an easy entry point for students new to the subject and

comprehensive coverage and original insights for scholars in the field Claims to Memory Catherine Reinhardt,2007-12-01 Why do the people of the French Caribbean still continue to be haunted by the memory of their slave past more than one hundred and fifty years after the abolition of slavery What process led to the divorce of their collective memory of slavery and emancipation from France s portrayal of these historical phenomena How are Martinicans and Guadeloupeans today transforming the silences of the past into historical and cultural manifestations rooted in the Caribbean This book answers these questions by relating the 1998 controversy surrounding the 150th anniversary of France s abolition of slavery to the period of the slave regime spanning the late Enlightenment and the French Revolution By comparing a diversity of documents including letters by slaves free people of color and planters as well as writings by the philosophes royal decrees and court cases the author untangles the complex forces of the slave regime that have shaped collective memory The current nationalization of the memory of slavery in France has turned these once peripheral claims into passionate political and cultural debates A Community of Voices on Education and the African American Experience Hazel Arnett Ervin,Lois Jamison Sheer,2016-02-29 This book offers a history of African American education while also serving as a companion text for teachers students and researchers in cultural criticism American and African American studies postcolonialism historiography and psychoanalytics Overall it represents essential reading for scholars critics leaders of educational policy and all others interested in ongoing discussions not only about the role of community family teachers and others in facilitating quality education for the citizenry but also about ensuring the posterity of a society via equal access to and attainment of quality education by its constituents of color Particularly this volume fills a void in the annals of African American history and African American education by addressing the vibrancy of an education ethos within Black America which has unequivocally served as cultural historical political legal and theoretical references **Chi-nyanja simplified** Robert Caldwell (F.R.G.S.),1897 **Economics and Empire in the Ancient Near East** Matthew J.
